THE NEW JETTA

THE SUMMIT OF AUTOMOTIVE ENGINEERING.

Model shown is new Jetta Sport with optional metallic paint.

WHEN YOU DON'T KNOW WHAT THE ROAD AHEAD HAS IN STORE, THE NEW JETTA YOU CAN EASILY MASTER ALMOST EVERY CHALLENGE ON YOUR JOURNEY.

Sleek, sophisticated, stylish, the all-new Jetta is designed to meet every automotive challenge the road ahead may have in store. Whether you're faced with bad weather or a long journey, a tight parking space or a traffic jam, superior engineering and innovative features provide a stress free, relaxing experience, ensuring you arrive in total luxury and comfort.

REFLECTS THE ULTIMATE IN REFINEMENT AND STYLE.

A COMPELLING COMBINATION OF STYLE, ELEGANCE AND SPORTINESS GIVES THE DYNAMIC NEW JETTA ITS DISTINCTIVE APPEARANCE.

WITH ITS SLEEK CONTOURS, SCULPTED BODYLINES AND AESTHETIC DETAIL, THE ALL-NEW DESIGN IS BOTH CONTEMPORARY AND TIMELESS, EXUDING QUALITY, CHARISMA AND REFINEMENT.

Halogen headlights, range adjustable with daytime running lights offer optimum illumination, ensuring your vehicle is more visible during the day and adding a stylish touch to the exterior.

New two-piece rear lights with integrated indicators incorporating LED technology enhances the rear styling, adding contemporary style and giving the new Jetta its distinctive identity.

The **electric sliding/tilting glass sunroof** provides an extra dimension of light and space, filling the interior with natural light. Easily operated at the touch of a button, the tilted position enables you to enjoy light and fresh air whatever the weather conditions, while the tinted glass offers protection against strong sunlight, ensuring a pleasant interior temperature. Optional on all models.

Heat insulating tinted glass from the B pillar backwards reduces sunlight by up to 65%, helping to ensure a pleasant temperature in the passenger compartment and providing additional privacy. Standard on all Sport and optional on all S and SE models.

INTERIOR.

If the exterior of the new Jetta promises, then the interior delivers. With three different trim levels to choose from – S, SE or Sport – you can opt for the new Jetta that best matches your personal preferences and lifestyle. Each offers an abundance of features and design points, all made from the highest quality materials and providing a level of refinement nothing short of exceptional. From the sheer value for money of the new Jetta S to the luxury of the SE and the exhilarating drive of the Sport, each is designed to meet your exact requirements. With innovative design assured down to the smallest detail, whichever trim level you choose, you know you will have made the right decision.

Considering how much time we spend on the roads today, it makes sense to ensure we travel in maximum comfort. And this is where the new Jetta excels. Cleverly designed and carefully crafted to provide a truly luxurious ride, the new Jetta contains a wealth of features all included to make motoring as stress-free and relaxed as possible.

White instrument lighting and red needles improves the visual appearance, while the multifunction computer provides important information as you travel.

Optional 'Vienna' leather* upholstery features heated front seats, as well as a rear bench seat and front under seat drawers, adding practicality to luxury. Optional on all SE and Sport models.

The cruise control system works electronically to help regulate your car's speed. It reduces the stress on drivers and offers you more comfort on long journeys by keeping a constant speed. Standard on all SE and Sport models.

The leather trimmed multifunction steering wheel is fitted with ergonomically designed switches, making it easy to use the radio and multifunction computer (Midline). Thanks to the height and reach adjustment of the steering column, the position of the steering wheel can also be individually adapted to your requirements. Standard on all SE and Sport and optional on all S models.

* Please note, 'Vienna' leather upholstery will not be available to order until early Spring 2011.

Interior shown is new Jetta Sport with optional 'Vienna' leather upholstery and metallic paint. Please note, 'Vienna' leather upholstery will not be available to order until early Spring 2011.

The redesigned boot has a maximum load volume of 510 litres and, along with a storage box on the left side, provides plenty of space for all your luggage and more, increasing flexibility and convenience.

When the rear centre armrest is folded down, it provides a useful load-through provision, enabling you to transport bulky objects, such as skis or snowboards, with the greatest of ease. The rear centre armrest also features two cup-holders. Standard on all SE and Sport models. Interior shown features optional 'Vienna' leather* upholstery.

The front centre armrest with spacious storage compartment and cover keeps your essentials within easy reach. Standard on all SE and Sport and optional on all S models. Interior shown features optional 'Vienna' leather* upholstery.

* Please note, 'Vienna' leather upholstery will not be available to order until early Spring 2011.

BIGGER BOOT, LONGER BODY, LOTS OF ROOM.

Interior shown is new Jetta Sport with optional 'Vienna' leather upholstery. Please note, 'Vienna' leather upholstery will not be available to order until early Spring 2011.

Interior shown is new Jetta S and optional metallic paint.

The new Jetta S offers a unique design, impressive quality and superb value for money. The list of standard equipment includes a newly designed 'Climatic' semi-automatic air conditioning system, multifunction computer (Midline), electric front and rear windows, and electrically heated and adjustable door mirrors.

Further comfort is assured with speed-sensitive power-assisted steering, steering wheel with height and reach adjustable steering column, driver's seat height adjustment and durable 'Cardeol' cloth upholstery.

On the exterior the high specification continues with halogen clear headlights, range adjustable with daytime running lights as standard. There are also body-coloured bumpers, door handles and door mirrors with integrated indicators incorporating LED technology. The look is completed with a black radiator grille surround and louvres.

Safety in the new Jetta is also paramount and this is highlighted with the inclusion, as standard, of driver's and front passenger's airbags with front passenger's airbag deactivation switch, curtain airbags, front seat side impact airbags and whiplash-optimised front head restraints. All new Jettas are also fitted with an electronic engine immobiliser and an alarm with interior protection.

The 'Climatic' semi-automatic air conditioning system is extremely user-friendly, providing your required cabin temperature quickly and efficiently, while maintaining your selected temperature.

The new Jetta S BlueMotion Technology engines allied with an automatic Start/Stop function and battery regeneration during braking means you can enjoy cleaner, greener performance with a clearer conscience.

NEW JETTA S AND S BLUEMOTION TECHNOLOGY.

Subtle trim elements in the SE provide a touch of elegance and flair with that extra bit of comfort and luxury. With an RCD 310 radio/MP3 compatible CD player and AUX-in socket with eight speakers, Multi Device Interface (MDI) with USB and iPod connection cables and cruise control, you can be assured you will arrive at your destination calm and relaxed after every journey.

Building over the already well equipped new Jetta S, the exterior look of the new Jetta SE is enhanced by the addition of 16 inch 'Navarra' alloy wheels and anti-theft wheel bolts. While inside, front comfort seats with 'Sienna' cloth upholstery including height and lumbar adjustment, a leather trimmed three-spoke multifunction steering wheel, gear knob and handbrake grip, front centre armrest with storage compartment, two rear air vents and cup holders, together with a rear centre armrest give both the driver and passengers added comfort.

However, the long list of standard equipment doesn't end there. Choose the new Jetta SE and you will also get load-through provision and a 60:40 split folding rear seat backrest, ideal for transporting long items, storage compartment in the roof console and front seat back storage pockets.

Opting for BlueMotion Technology on the new Jetta SE helps improve fuel consumption, with the 1.6 litre 105 PS TDI manual engine achieving up to 67.3 mpg over the Combined fuel cycle*.

* Please see pages 30-31 for fuel consumption figures.

NEW JETTA SE AND SE BLUEMOTION TECHNOLOGY.

'Pyramid Black' decorative inserts in dash, doors and centre console complement the interior of the new Jetta SE.

A rear centre armrest with **load-through provision** provides an easy and convenient method of transporting bulky items. Interior shown features optional 'Vienna' leather* upholstery.

* Please note, 'Vienna' leather upholstery will not be available to order until early Spring 2011.

Interior shown is new Jetta SE.

Interior shown is new Jetta Sport with optional 'Vienna' leather upholstery and metallic paint. Please note, 'Vienna' leather upholstery will not be available to order until early Spring 2011.

An exceptionally high degree of driving comfort combined with impressive power and agility ensures the new Jetta Sport and new Jetta Sport BlueMotion Technology deliver pure driving fun, whichever engine specification you choose. It looks particularly sporty with 17 inch 'Queensland' alloy wheels* complete with 225/45 R17 tyres on Sport models or choose the BlueMotion Technology model, and 16 inch 'Atlanta' alloy wheels with low rolling resistance tyres are standard. For maximum grip on the road, the suspension is lowered by approximately 15 mm and front fog lights with static cornering function, mounted within the front bumper, illuminate the road ahead in poor visibility.

Inside the new Jetta Sport, the vibrant 'Gloss' seat centre sections and 'Microfibre' side bolsters provide a touch of luxury. Front sport seats with height and lumbar adjustment are fitted as standard and offer the driver and front seat passenger optimum lateral support at all times. The sports look is completed inside with 'Iridium' decorative inserts in the dash and centre console.

* Temporary steel spare wheel in conjunction with 'Queensland' alloy wheels.

Heat insulating rear tinted windows from B pillar back are 65% light absorbing and help reduce exposure to the sun's rays whilst giving your new Jetta a sporty look.

17 inch 'Queensland' alloy wheels help give a sporty and dynamic presence to the exterior of your New Jetta Sport.

NEW JETTA SPORT AND SPORT BLUEMOTION TECHNOLOGY.

SAFETY.

The **optional Parking sensor pack** comprises of parking sensors, front and rear, and reverse kerb-view adjustment on the passenger's door mirror. The parking sensors assist in parking manoeuvres by emitting both audible and visual signals, alerting the driver to any obstacles in the way: the closer you are to an obstacle the faster the sound frequency. In addition an Optical Parking Display extends the functions of the parking sensors by indicating your position, either in monochrome on RCD 310 radio system or colour on the optional RCD 510 radio system and RNS 310 or RNS 510 navigation systems, on the vehicle's audio display during parking. Optional on all models.

The Optical Parking Display feature will not function with RCD 210 radio system.

The **Electronic Stabilisation Programme (ESP)** recognises critical driving situations and reacts in milliseconds by targeting brake and management systems, controlling the speed of individual wheels and helping to bring the vehicle under control. As a result the vehicle achieves maximum directional stability.

Active safety features, such as the **brake pad wear indicator** informs the driver when the brake pads need replacing.

Only when you feel safe can you drive confidently. Which is why safety is such a fundamental concept in the new Jetta – and why a whole range of new generation safety features are fitted as standard. Passive safety features include a curtain airbag system for front and rear passengers, front seat side impact airbags, as well as the standard driver's and front passenger's airbags with passenger's airbag deactivation switch. Following an impact from the rear, the whiplash-optimised front head restraints help minimise whiplash injuries to the neck and spine and in addition, there are three head restraints and three-point seat belts for the rear seat passengers. The front seat belts are fitted with tensioners and are height-adjustable for added safety and comfort with a warning light and buzzer to notify you if your seat belt is unfastened. Further active safety features include an Anti-lock Braking System (ABS) and an Electronic Stabilisation Programme (ESP), supported by Electronic Differential Lock (EDL) and Traction Control (ASR). With everything included to ensure maximum safety for all concerned, all you have to do is sit back, relax and enjoy its many benefits with complete peace of mind. What better incentive could there be for driving the new Jetta?

The **driver's and front passenger's whiplash-optimised head restraints** not only ensure additional comfort, but also provide particularly effective support for the head and spine in the event of a collision.

ENGINES AND GEARBOXES.

The new Jetta has a range of powerful and efficient engines at its disposal with two petrol TSI variants benefiting from innovative direct injection technology. TSI is the name given to Volkswagen's twincharged or singlecharged petrol engines with direct petrol injection. The basic features common to all TSI engines are the downsizing concept, direct injection and turbocharging. This innovative engineering results in high tech engines with excellent torque and power output combined with low fuel consumption. Incorporated into the TSI engines is FSI technology, whereby fuel is injected directly into the combustion chamber under high pressure. The benefit of this method – is that it only burns the exact amount of fuel required helping to reduce fuel consumption and boost performance even at low revs.

The TDI engines available for the new Jetta eliminate any compromises – you can have performance as well as exceptional economy†. These diesel engines all benefit from the latest common rail technology, resulting in exceptional pulling power throughout the rev range alongside low fuel consumption. This technology not only ensures excellent performance and fuel consumption but also makes it incredibly quiet. When utilised with BlueMotion Technologies such as the Start/Stop function and battery regeneration – both fuel consumption and CO₂ emissions are further reduced dramatically.

The revolutionary DSG gearbox provides the best of both worlds, combining super smooth and extremely fast gear changes with performance and economy. Available as a six or seven speed gearbox.

The new Jetta's TSI engines have a six speed manual gearbox which transmits power with short, accurate shifts and very smooth handling, making it easy to drive at the right engine speed.

Volkswagen's technologically advanced TSI engines combine excellent driveability with impressive fuel economy. The combination of direct fuel injection and intelligent turbocharging technology allows petrol engines with TSI technology to work particularly efficiently, offering such advantages as high performance, high torque and reduced fuel consumption. TSI technology is available as either a 1.4 litre TSI 122 PS* or 1.4 litre TSI 160 PS*.

The first diesel engine available for the new Jetta, is a 1.6 litre 105 PS BlueMotion Technology with a five speed manual or a seven speed DSG gearbox. The manual engine achieves an exceptional 67.3 mpg on the Combined fuel cycle†. For a more sporty option, the 2.0 litre TDI generating 140 PS with either a six speed manual or six speed DSG gearbox is available. The manual engine boasts impressive economy with a CO₂ of 126 g/km† and 58.9 mpg on the Combined fuel cycle†, yet can accelerate the Jetta to 62 mph in an impressive 9.5 seconds.

* These engines will not be available from launch. Please contact your Volkswagen retailer for full details.

† Please see pages 30-31 for fuel consumption and CO₂ emissions figure.

CREATE YOUR OWN PERSONAL ENVIRONMENT.

INNOVATION FOR TOTAL RELAXATION.

The RCD 310 radio/MP3 compatible CD player features eight speakers with an output of 4 x 20 watts. It also features an AUX-in socket for connection to an external multimedia source (e.g. iPod or MP3 player). Standard on all SE and Sport and optional on all S models. Also available as an upgrade to your RCD 310 and RCD 510 is a DAB digital receiver, allowing you to listen to all digital stations available in crystal clear sound. Optional on all models.

The RCD 510 touch-screen radio/dash-mounted MP3 compatible six CD autochanger features a large 6½ inch colour display, with intuitive menu navigation and touch-screen operation. It also features an AUX-in socket for connection to an external multimedia source (e.g. iPod or MP3 player) and an SD memory card slot. Optional on all models.

Bluetooth telephone preparation for HFP (Hands Free Profile) enabled telephones allows you to use your phone safely and easily whilst driving. Optional on all models.

Phones must have HFP (Hands Free Profile), please contact your retailer for phone compatibility. Radio shown is RCD 510 touch-screen radio system.

The RNS 310 touch-screen navigation/radio system features a 5 inch colour display for clear map navigation, guiding you to your destination using all but the last two digits of a UK postcode. The MP3 compatible CD player will play music CDs even when the navigation system is being used, while music can also be played via the SD card slot. Optional on all models.

The RNS 510 DVD touch-screen radio/navigation system with integrated voice control features a 30 GB hard drive, six CD autochanger, DVD drive, multifunction display showing clear navigational directions, an SD card reader and full compatibility with MP3 and WMA files. The AUX-in socket and Multi Device Interface (MDI) enables you to connect to an external multimedia source, such as an iPod or MP3 player. Optional on all models.

The Multi Device Interface (MDI) with iPod and USB cables enables you to connect and charge a compatible device, while track selection is viewed and selected via the vehicle's radio system. Standard on all SE and Sport and optional on all S models.

Please note, on all S models this must be ordered in conjunction with RCD 310, RCD 510, RNS 310 or RNS 510 radio system.

RNS 310 and RNS 510 navigation/radio system includes postcode search functionality for all but the last 2 digits of a UK postcode. Note, the DVD playback on the RNS 510 will not function whilst the navigation system is in use, or the vehicle is in motion.

Model shown is new Jetta Sport with optional metallic paint.

TECHNOLOGY FOR TOTAL CONVENIENCE.

The headlight washer system forms part of the **Winter pack**, along with heated front seats, heated windscreen washer jets and low washer fluid warning light. This clever system will ensure that your headlights are kept clean of dirt and grime. Optional on all models.

Heated front seats are included in the **Winter pack**, heating up much faster than the vehicle's ventilated heating system, ensuring maximum comfort in the cold weather. Optional on all models.

Parking sensors, which form part of the Parking sensor pack, assists in challenging parking manoeuvres by emitting an audible warning, alerting the driver to any obstacles in the way: the closer you are to an obstacle the faster the sound frequency. Reverse activated kerb-view adjustment on the passenger door mirror and an **optical parking display*** via the vehicle's audio display are also handy additions. Optional on all models.

* Please note, this must be ordered in conjunction with RCD 310, RCD 510, RNS 310 or RNS 510 radio system to feature optical parking display function.

2Zone electronic climate control with **automatic air recirculation**, controls the temperature electronically and divides the interior into two different climate zones, enabling the driver and front passenger to adjust the temperature, air supply and distribution to suit their individual preference. Optional on all models.

The **electric glass sunroof** can easily be operated at the touch of a button, enabling you to let light and fresh air into the interior, regardless of the weather conditions. Tinted glass ensures adequate sun protection. Optional on all models.

Exclusive **'Vienna' leather upholstery** provides the ultimate in comfort and luxury whilst being durable and easy to maintain. A luxurious addition, available in Corn Silk Beige or Black, which will enhance the new Jetta's interior ambience. Optional on all SE and Sport models.

Please note, 'Vienna' leather upholstery will not be available to order until early Spring 2011.

WHEELS.

6 1/2J x 16 steel wheels with 205/55 R16 tyres. Standard on all S models. BlueMotion Technology models are fitted with 205/55 R16 low rolling resistance tyres.

'Navarra' 6 1/2J x 16 alloy wheels with 205/55 R16 tyres and anti-theft wheel bolts. Standard on all SE and optional on all S models. BlueMotion Technology models are fitted with 205/55 R16 with low rolling resistance tyres.

'Queensland' 7J x 17 alloy wheels with 225/45 R17 tyres and anti-theft wheel bolts. Standard on Sport and optional on SE models.

'Porto' 7J x 17 alloy wheels with 225/45 R17 tyres and anti-theft wheel bolts. Optional on SE and Sport models.

'Atlanta' 6 1/2J x 16 alloy wheels with 205/55 R16 low rolling resistance tyres and anti-theft wheel bolts. Standard on Sport BlueMotion Technology models.

'Perth' 6J x 16 alloy wheels with 205/55 R16 tyres and anti-theft wheel bolts. Optional on all S and SE models. BlueMotion Technology models are fitted with 205/55 R16 low rolling resistance tyres.

PAINTS AND UPHOLSTERY.

PAINT

UPHOLSTERY

* Metallic and pearl effect paints, and leather upholstery are optional at extra cost.
 † Please note, 'Vienna' leather upholstery will not be available to order until early Spring 2011.
 Please note: the print processes do not allow for exact reproduction of the paint and upholstery colours.

A change in some figures may result in a change to the Manufacturer's Recommended 'On the road' Retail price. Please contact your Volkswagen retailer for full details.

TECHNOLOGY.

Technical specification notes

- (01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- (02) Figures are calculated in accordance with manufacturer's criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly. The unladen weight and payload both include the fuel tank 90% full, driver (68 kg) and luggage (7 kg) in line with EU directive 95/48.
- (03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- (04) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of unleaded Super plus. In order to achieve maximum fuel consumption benefits on the TSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- (05) The use of RME and FAME (bio diesel) is not possible.
- (06) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- (07) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

Engines

1.4 litre/122 PS⁽⁰¹⁾ (90 kW) petrol engine: CAXA TSI engine with homogeneous mode (Lambda 1), stratified high-pressure start, double injection catalytic converter heating, turbocharger with waste gate, air-to-liquid charge-air cooling, maintenance-free timing chain, plastic intake manifold with integrated intercooler, continuous inlet camshaft timing adjustment, grey cast iron cylinder block, steel crankshaft, duo-centric oil pump, dual-circuit cooling system. Fuel system regulated according to requirements using high pressure fuel pump with integrated pressure limiting valve

1.4 litre/160 PS⁽⁰¹⁾ (118 kW) petrol engine: EU5 compliant four cylinder in-line engine with homogeneous mode (Lambda 1), stratified high-pressure start, turbocharger with waste gate, additional mechanical supercharger, intercooler and dual-circuit cooling system. Fuel system regulated according to requirements using high pressure fuel pump with integrated pressure limiting valve. Intake manifold flap change-over omitted, regulated duo-centric oil pump, metal cartridge oil filter and three way catalytic converter

1.6 litre/105 PS⁽⁰¹⁾ (77 kW) common rail diesel engine: EU5 emissions standard, four cylinder in-line engine, four valves per cylinder, aluminium-silicon alloy cylinder head, reduced piston crown volume (improves swirl generation in the cylinder), toothed backlash compensator, intake manifold with electric continual tumble flap control, electronically controlled common rail direct injection fuel system with Bosch high pressure pump (up to 1800 bar) and 8-hole piezo injector units, pre-supply electronic fuel pump, oil cooler, intercooler, low temperature exhaust gas recirculation, additional coolant pump, turbocharger with variable turbine geometry, catalytic converter and Diesel Particulate Filter (DPF)

2.0 litre/140 PS⁽⁰¹⁾ (103 kW) common rail diesel engine: EU5 emissions standard, four cylinder in-line engine, four valves per cylinder, aluminium-silicon alloy cylinder head, reduced piston crown volume (improves swirl generation in the cylinder), toothed backlash compensator, intake manifold with electric continual tumble flap control, electronically controlled common rail direct injection fuel system with Bosch high pressure pump (up to 1800 bar) and 8-hole piezo injector units, pre-supply electronic fuel pump, oil cooler, intercooler, low temperature exhaust gas recirculation, additional coolant pump, turbocharger with variable turbine geometry, catalytic converter and Diesel Particulate Filter (DPF)

Transmission

- Front wheel drive through asbestos-free single-plate dry clutch. Hydraulic clutch mechanism. Six speed manual or six/seven speed auto DSG gearbox with double joint half axles
- Electronic differential lock, combined with a hydraulically operated single-plate dry clutch with asbestos-free lining via a six speed auto DSG gearbox
- Five speed manual: 1.6 litre TDI 105 PS
- Six speed manual: 1.4 litre TSI 122 PS, 1.4 litre TSI 160 PS, 2.0 litre TDI 140 PS
- Six speed auto DSG: 2.0 litre TDI 140 PS
- Seven speed auto DSG: 1.4 litre TSI 160 PS, 1.6 litre TDI 105 PS

Running gear

- Electronic Stabilisation Programme (ESP) including Electronic Differential Lock (EDL), Traction Control (ASR) and Countersteer Support
- Front suspension through coil springs with telescopic shock absorbers, all elements integrated in chassis legs
- Rear suspension with gas pressure shock absorbers and separate springs

- Wheel control: rear through four-link suspension with independent wheel suspension
- Front and rear anti-roll bar

Steering

- Electro-mechanical steering rack
- Collapsible, height and lengthways adjustable safety steering column

Brakes

- Electronically controlled Anti-lock Braking System (ABS) – includes BAS (Brake Assist System) and Electronic Brake-pressure Distribution (EBD)
- Diagonal twin-circuit brake system with inner-ventilated front disc brakes and rear disc brakes
- Asbestos-free brake pads
- Brake energy recuperation

VOLKSWAGEN SERVICE FOR YOUR PEACE OF MIND.

The Volkswagen Warranty.

Three-year Warranty.

All Volkswagen new Jettas come with a three-year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty. Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised Volkswagen retailer or repairer; however, this additional warranty must be purchased before the mileage reaches 60,000*. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

* All warranty work must be completed by an authorised Volkswagen retailer or repairer.

Three-year Paint Warranty.

The paintwork of the new Jetta is covered against manufacturing defects for a period of three years. Naturally, the new Jetta must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

12-year Body Protection Warranty.

The internal body sections and panels of the new Jetta are covered against rusting through from the inside for 12 years. Naturally, the new Jetta must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

Approved Accessories.

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen approved accessories purchased from and fitted by your authorised Volkswagen retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

Extended Warranty.

You may purchase additional protection from your authorised Volkswagen retailer or repairer, or contact 0870 9000 115.

Tax Free Sales.

For full details, please contact your authorised Volkswagen retailer.

Service Intervals.

Volkswagen are pleased to offer you a choice on how your new Jetta is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Time and Distance Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts.
- Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing.
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking.

The service intervals for the Time and Distance Service are as follows:

- Oil change service
Every 10,000 miles/1 year (whichever is soonest).
- Interval service
Every 20,000 miles/2 years (whichever is soonest).
- Inspection service
Every 40,000 miles/3 years (whichever is soonest).

The LongLife Service is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

With the LongLife Service the vehicle can cover anywhere between 10,000[†] and a maximum of 18,000[†] miles or 24 months (whichever is soonest) between oil changes. Inspection service is typically in the third year of ownership and thereafter every second year, for vehicles with an approximate annual mileage of 10,000 miles.

- [†] Please note that mileages are approximate as the service indicator system uses kilometres as the distance measurement. Please consult your authorised Volkswagen retailer or repairer for advice and full details.

Volkswagen Insurance[‡].

We want you to start enjoying your new car from day one and thanks to Volkswagen Insurance complimentary seven day cover, you can. Call free on 0800 316 7892 (lines are open Monday to Friday 8 am - 9 pm and Saturday 9 am - 5 pm), provide a few details and a cover note will be sent to your retailer. They will then tax your car and you can drive it away. Visit www.insurewithvolkswagen.co.uk for details of the full range of insurance products available. Volkswagen Finance[±].

Volkswagen Finance specialises in providing funding solutions for Volkswagen drivers. Whether your Volkswagen is for private or business use, you can choose from a range of funding options.

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Volkswagen Finance products you can choose a fixed-cost maintenance plan to help you budget for your servicing and maintenance costs.

No matter what finance product you choose, your local Volkswagen retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs.

- [±] Volkswagen Finance is a trading name of Volkswagen Financial Services (UK) Limited. An offer of finance depends on certain conditions. Available to people over 18 in the UK only.

Volkswagen Roadside Assistance.

Every new car is registered for Volkswagen Roadside Assistance for one year. This provides vehicle home and roadside recovery in the unlikely event of a breakdown in the UK and Europe (subject to conditions). Volkswagen Roadside Assistance can also be purchased for subsequent years. For full details, please contact your authorised Volkswagen retailer or repairer.

CO₂ Emissions.

Increased weight of a vehicle, including higher trim levels and the addition of options will have a detrimental influence on the level of fuel consumption and CO₂ emissions produced.

The CO₂ and fuel consumption figures are obtained from tests on a representative vehicle of the type, conducted and approved in accordance with Council Directive 80/1268/EEC as amended by Directive 1999/100/EC (or later) on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

Please Note:

Some illustrations in this brochure do not necessarily reflect UK specifications and may not be available. In particular, controls and some items of equipment are positioned differently for the UK.

The specifications contained in this brochure are for information purposes only and are subject to change. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen retailer prior to ordering.

Note: We would like to advise you that telephone calls to Volkswagen Customer Care may be monitored and recorded as part of our training and quality assurance processes. All our monitoring and recording processes meet Ofcom regulations.
