## The Lupo.

Today's driving environment has radically changed, so when choosing your new car, you want one that's versatile. Probably a compact design that's economical\* and highly manoeuvrable – but not at the expense of quality and comfort. In short, you need a Lupo. Although small enough to revel in city traffic and prey upon lesser sized parking spaces, its size is deceptive. Step inside and you'll discover a practical interior that will comfortably accommodate your daily needs.

\* Please see pages 32 – 35 for fuel consumption figures.

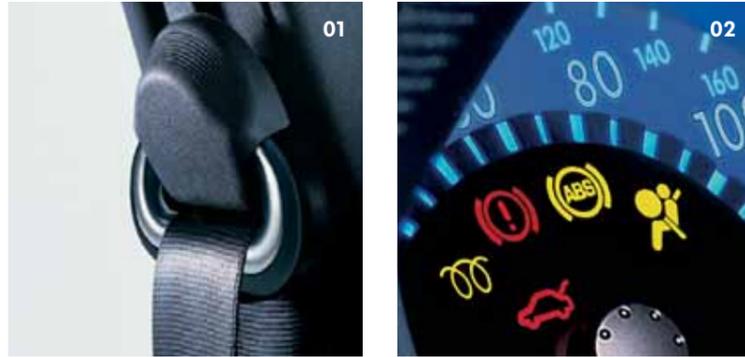

01 For greater comfort and safety, the front seat belts are height-adjustable.

02 The proven safety of anti-lock brakes is standard on all models.

03 Rear head restraints provide added protection and a luxurious finish.

04 Full sized airbags for driver and front passenger are standard.

05 Strengthened square and longitudinal rods ensure greater stability.

When designing a small car, safety is an important element. The chassis is extremely rigid and is equipped with crumple zones to absorb impact. The Lupo is a fine example of strength through design. This is evident when driving the Lupo, as its torsional rigidity improves handling and roadholding.

The Lupo has set an enviable standard amongst the supermini class and, with such an extensive list of safety features, it's easy to see why.

Passive safety features help minimise injury during an accident and the Lupo is equipped with numerous examples. There are twin airbags and a strengthened chassis reinforced with torsional rods and crumple zones to absorb energy during an accident. Additional door-mounted side impact bars provide further resistance to prevent the door penetrating the inner cell following a collision.

The front seat belts can be adjusted to three height settings and are also fitted with pre-tensioners for greater restraint.

For the youngest members of your family, the innovative and convenient Isofix child safety system provides added protection. By attaching the Isofix child seat to pre-installed fixings directly on the chassis, the seat remains firmly in place and there's no need for the lengthy process of threading seat belts.

In addition, Anti-lock Braking System (ABS) is standard on all models. This sophisticated system prevents the wheels from locking during heavy or emergency braking, enabling the Lupo to remain steerable and significantly reducing stopping distances.

01

02

03

## The engines.

Thanks to Volkswagen's advanced engineering, the engines available for the Lupo are particularly efficient, economical and smooth running.

There are four petrol engines – a 1.0 litre 50 PS, a 1.4 litre 75 PS, also available with an automatic transmission, a 1.4 litre 16V 100 PS and the performance orientated 1.6 litre 16V that drives the Lupo GTI. This exceptional engine delivers 125 PS and powers the Lupo GTI from 0 - 62 mph in just 8.3 seconds and on to a top speed of 127 mph, where the law permits.

Few small cars offer a diesel equipped with a turbocharger – but the Lupo does. Its 1.4 litre TDI 75 PS engine delivers a superb blend of performance and economy. It can take you from 0 - 62 mph in just 12.3 seconds, but can still achieve 78.5 mpg on the Extra-urban cycle\*.

You can also choose a 1.7 litre diesel, available for the E and S, which generates 60 PS and is capable of 78.5 mpg on the Extra-urban cycle\*.

**01** The impressive 1.6 litre 16V 125 PS engine powers the Lupo GTI.

**02** The power of a turbo with the economy of a diesel: the 1.4 litre TDI 'Pumpe Düse'.

**03** The sporty 1.4 litre 16V engine delivers an impressive 100 PS.

\* Please see pages 32 – 35 for fuel consumption figures.

**With so many benefits, the Lupo will always be the right choice.**

Model shown is S.

## The Lupo E.

The interior of the Lupo is inspirational. Not only do the fabrics portray the Lupo's cheerful character, it's also extremely comfortable.

The front seats, for example, are mounted on rollers, so adjustment is both smooth and effortless. The seats themselves are ergonomically contoured to provide exceptional support and include front and rear head restraints. So whether you're tackling a twisting road or a long drive, you'll appreciate the comfort and security they provide.

All models have power steering and you can adjust the driver's seat and steering wheel height, to help achieve a comfortable driving position. As you'd expect with a Volkswagen, a number of safety features are built in, ABS brakes are also fitted as standard on all models.

For a small car you'll find the rear seats perfect when you need to carry additional passengers. Or, perhaps, more luggage? With a two seater rear configuration that splits 50:50, you have the utmost adaptability.

The attractive 'Strike' design interior is available in Black or Flannel Grey to complement your choice of exterior colour.

You'll also find plenty of storage space for your travel essentials, such as the door storage nets or the lower dashboard shelf, whilst the practical cup holder is ideal for long journeys.

01

02

**01** To achieve the most comfortable driving position, the steering wheel is height-adjustable.

**02** As standard, the driver's seat is height-adjustable.

**03** The interior of the Lupo E with attractive 'Strike' cloth.

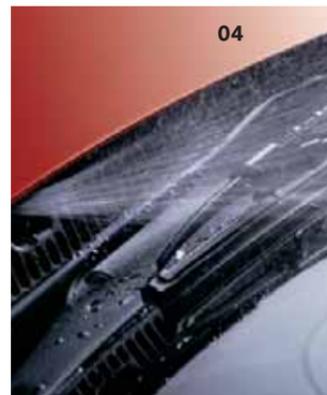

## The Lupo S.

If you're seeking small car convenience with larger car comforts, look no further than the Lupo S.

You only have to see the 'Plaza' trim to realise the Lupo S is exceptional in its sector – one that exudes quality.

There's an extensive list of standard equipment including body-coloured door mirrors, side bump strips and door handles, central locking, electric front windows and 'easy entry' seats that allow quicker access to the rear seats.

And don't forget the features that are standard on every Lupo, like ABS brakes, folding rear seats, a third central sun visor, vanity mirrors on both the driver and front passenger sun visors and a 'Beta' security coded radio/cassette player ('Gamma' on GTI).

**01** The interior of the Lupo S with 'Plaza' cloth.

**02** Manual opening rear windows are standard on the Lupo S.

**03 – 04** Front fog lights and heated windscreen washer jets are available together as an optional extra.

## The Lupo Sport.

Its combination of size, weight distribution and power makes the Lupo Sport extremely swift and agile. It also ensures it's great fun to drive.

To power the Lupo Sport you can choose either a petrol or diesel engine. The 1.4 litre 16 valve petrol engine develops 100 PS and that's enough power to accelerate the Lupo Sport from 0 - 62 mph in just 10 seconds on its way to a top speed of 116 mph, where the law permits.

Alternatively, the 1.4 litre 75 PS TDI combines the power of a turbo with the economy of a diesel and achieves 0 - 62 mph in 12.3 seconds, whilst achieving 64.2 mpg on the Combined cycle\*.

Externally, its sporty character is underlined with 'Kyalami' 14 inch alloy wheels with anti-theft wheel bolts, front fog lights and heated windscreen washer jets.

Stylish black interwoven velour upholstery has been used on the seats and the door trims which complements the individual appeal that characterises the Lupo Sport.

\* According to EU Directive 99/94. Please see pages 32 - 35 for fuel consumption figures.

01

02

- 01** Stylish 'Kyalami' 14" alloy wheels with 185/55 tyres are standard on the Sport.
- 02** A single chrome centre exhaust is exclusive to the Sport (not available on TDI).
- 03** Interior shown is Sport with optional single CD player.

## The Lupo GTI.

Since Volkswagen created a motoring revolution in 1976 with the launch of the first GTI, only a select few models have displayed these prestigious letters. Sharing performance, roadholding and a dynamic driving experience, every GTI has worn the badge with pride. The Lupo is no exception.

The secret of the Lupo GTI's performance capability is a combination of engine efficiency and a lightweight construction. Its 16 valve engine features variable valve timing on the inlet camshaft, leading to a flatter torque curve. It generates a torque of 152 Nm at just 3,000 rpm, providing good pulling power, even at low engine revolutions. Weight is a crucial factor and the Lupo GTI totals just 1,015 kg. This is achieved by making the bonnet, doors and wheel arches from lightweight aluminium.

With the Lupo GTI, performance is not at the expense of fuel efficiency. A top speed of 127 mph (where the law permits) and 0 - 62 mph in 8.3 seconds are complemented by a Combined fuel consumption figure of over 38 mpg\*. To match such performance, the Lupo GTI is equipped with disc brakes all round, ventilated at the front, and ABS as standard.

Externally, the Lupo GTI possesses distinctive styling. Flared wheel arches, side skirts, a deep front sill, a spoiler bumper with integrated air inlets and mesh grille combine to provide great presence. Its aesthetic exterior is completed with 'Bathurst' 15 inch alloy wheels, Xenon headlights, a rear roof spoiler, centrally mounted chrome twin exhaust tailpipe and a GTI badge. This stunning exterior can be finished in Black, Tornado Red, Metallic Reflex Silver and Pearl Effect Grey Anthracite.

The performance theme continues inside with front sports seats, leather rimmed three-spoke steering wheel, black headlining, black or red/black interwoven velour upholstery, aluminium foot pedals and a 'Gamma' radio/cassette player with eight speakers.

\* According to EU Directive 99/94. Please see pages 32 - 35 for fuel consumption figures.

- 01 The sporty interior of the Lupo GTI.
- 02 The slick, six speed transmission is capped by a stylish aluminium gear knob.
- 03 The mesh front grille enhances the sporty appearance of the GTI.

**Extensive optional equipment –  
because we all have different needs.**

Model shown is GTI with optional Reflex Silver metallic paint.

### Electric windows.

The convenience of electric front windows and central locking is standard on the Lupo S, Sport and GTI models. Available as an option on the Lupo E.

### Leather upholstery.

Optional black leather upholstery perfectly complements the unique interior of the Lupo. The optional leather upholstery pack includes leather rimmed steering wheel, gear knob, gaiter (not auto) and individually heated front sports seats with a choice of five preset temperature settings.

- 01 The convenience of electric front windows and central locking.
- 02 The optional heated seats have five preset temperature settings.
- 03 Sumptuous black leather upholstery with heated front sports seats is optional on S, Sport and GTI models.

- 04 Stylish 'Kyalami' 14" alloy wheels with 185/55 tyres, optional on E and S models.
- 05 The elegant finish of 14" steel wheels with 185/55 tyres, optional on E and S models.
- 06 Side airbags provide greater protection for the driver and front seat passenger.

### Wheels.

Alternative wheel designs are a simple way to personalise your Lupo.

For E and S models you can choose either the classic design of the 14 inch steel wheels or the stylish addition of 14 inch alloy wheels.

### Airbags.

In the unfortunate event of an accident involving a side impact of sufficient severity, the side airbag will inflate within milliseconds. Designed to protect the thorax region (upper body) and the pelvis from lateral bruising, only the airbag on the side of the impact will inflate.

- 01** The large fabric sunroof folds neatly back at the touch of a button. Model shown is the Lupo E with optional 'Kyalami' alloy wheels.
- 02** The electrically operated sunroof has a 'one-touch' open/close facility.

**Open Air.**

The Open Air module is the cost-effective way of sampling the fun of a cabriolet. At the touch of a button the large fabric sunroof folds neatly back to unleash the thrill of an open top. To reduce internal wind noise, it comes with a fixed aerodynamic roof spoiler. Available on all models except GTI.

**Sunroof.**

The fully automatic operation of the electric sunroof allows you to open or close the sunroof to a desired setting in one swift action. It comes complete with silicone-damped grab handles and is available as an option on all models.

**Air conditioning.**

Air conditioning provides year round comfort. In the summer months it provides welcome relief from hot and humid temperatures, but it's also highly effective in the winter when it can help reduce humidity and maintain a comfortable climate, which may benefit allergy sufferers. Available on all models except those with 1.7 litre SDI engines.

**Rear vent windows.**

Manual opening rear vent windows improve interior ventilation for hot summer days. Available as an option on E and Sport TDI and standard on S models only.

**Single CD player.**

The single CD player is compatible with both the 'Beta' or 'Gamma' radio/cassette players and fits neatly into the space underneath. Available as an option on all models.

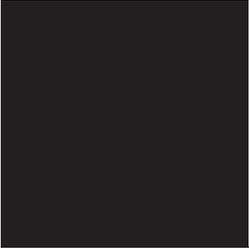

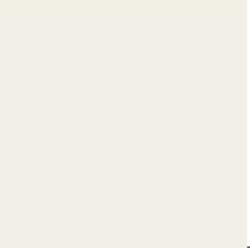

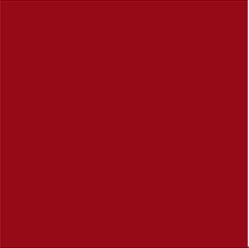

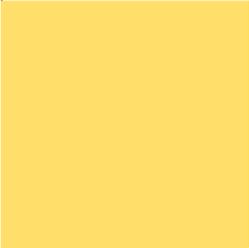

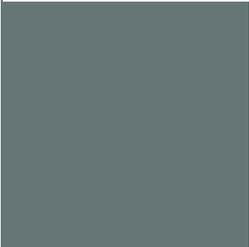

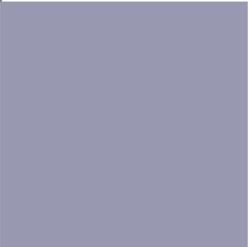

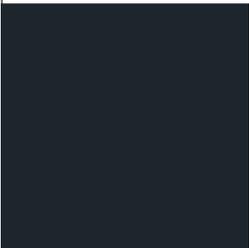

- 03** The optional CFC-free air conditioning has an air circulation switch to boost performance.
- 04** Manual opening rear vent windows for improved ventilation.
- 05** Clear and simple. The single CD player.

Colours to fire your imagination.

## Technical specification.

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer's criteria. Vehicle unladen weight ranges with 90% tank capacity without driver (75 kg). The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 05) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of Super plus unleaded.
- 06) The use of bio diesel according to DIN 51606 is possible to about -10°C.
- 07) The weight of a vehicle will influence the level of CO<sub>2</sub> emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO<sub>2</sub>. The CO<sub>2</sub> figure quoted for each vehicle is the maximum possible. The unladen weight of the vehicle is calculated by range at the time of manufacture and the maximum possible CO<sub>2</sub> emission for that weight range is applied according to the Council Directive 80/1268EEC as amended by Commission Directive 1999/100/EC on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

## The technology.

### Engines

- Front transversely-mounted
- 1.0 litre/50 PS<sup>(01)</sup> (37 kW) petrol engine. Hydraulic, maintenance-free tappets. Electrically driven, thermostatically controlled cooling fan. Light alloy cross flow cylinder head with belt driven single overhead camshaft.
- 1.4 litre/75 PS<sup>(01)</sup> (55 kW) petrol engine. Hydraulic, maintenance-free tappets. Electrically driven, thermostatically controlled cooling fan. Light alloy cross flow cylinder head with belt driven double overhead camshaft.
- 1.4 litre/100 PS<sup>(01)</sup> (74 kW) petrol engine. Hydraulic, maintenance-free tappets. Electrically driven, thermostatically controlled cooling fan. Light alloy cross flow cylinder head with belt driven double overhead camshaft.
- 1.6 litre/125 PS<sup>(01)</sup> (92 kW) petrol engine. Cast iron cylinder block, alloy cylinder head with double overhead camshaft.
- 1.7 litre/60 PS<sup>(01)</sup> (44 kW) diesel engine. Hydraulic, maintenance-free tappets. Electrically driven, thermostatically controlled cooling fan. Light alloy cross flow cylinder head with belt driven single overhead camshaft.
- 1.4 litre/75 PS<sup>(01)</sup> (55 kW) diesel engine. Alloy cylinder block and cylinder head with single overhead camshaft.

- Radio/cassette 'Gamma' with RDS, 8 speakers and roof aerial
- Repair kit (no temporary steel space-saver spare wheel)
- 6 speed manual gearbox

# Volkswagen service for your peace of mind.

## **The Volkswagen Warranty.**

### **Three-year Warranty.**

All Volkswagen Lupo come with a three-year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty. Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised Volkswagen retailer or repairer; however, this additional warranty must be purchased before the mileage reaches 60,000. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

### **Three-year Paint Warranty.**

The paintwork of the Lupo is covered against manufacturing defects for a period of three years. Naturally, the Lupo must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

### **12-year Body Protection Warranty.**

The internal body sections and panels of the Lupos are covered against rusting through from the inside for 12 years. Naturally, the Lupo must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

### **Service Intervals for Petrol and Diesel Engines.**

Full details of what checks and work are recommended at each service are contained in the Service Book and your authorised Volkswagen retailer or repairer will be able to advise you of any particular requirements.

### **Approved Accessories.**

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen approved accessories purchased from and fitted by your authorised Volkswagen retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

### **Volkswagen Insurance.**

Competitive insurance premiums are available to Volkswagen owners through Volkswagen Insurance Service (Great Britain) Limited. Volkswagen Insurance guarantees that all repair work is undertaken by an authorised Volkswagen retailer or repairer. For a quotation, telephone Linkline on 0845 600 8006.

## **Extended Warranty.**

You may purchase additional protection from your authorised Volkswagen retailer or repairer, or contact 0870 9000 115.

## **Volkswagen Finance†.**

Volkswagen Finance offers a dedicated service to meet the needs of both the business user and the private motorist. We can help you choose the right type of finance and will tailor the package to meet your specific requirements. Please consult your authorised Volkswagen retailer for details.

† Volkswagen Finance is a trading name of Volkswagen Financial Services (UK) Limited.

## **Volkswagen Assistance.**

Every new car is registered for Volkswagen Assistance for one year. This provides vehicle recovery in the unlikely event of a breakdown (subject to conditions). Volkswagen Assistance can also be purchased for subsequent years. For full details, please contact your authorised Volkswagen retailer.

## **Tax Free Sales.**

For full details, please contact your authorised Volkswagen retailer.

## **CO<sub>2</sub> Emission.**

The weight of a vehicle will influence the level of CO<sub>2</sub> emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO<sub>2</sub>.

The CO<sub>2</sub> figure quoted for each vehicle is the maximum possible. The unladen weight of the vehicle is calculated by range at the time of manufacture and the maximum possible CO<sub>2</sub> emission for that weight range is applied according to the Council Directive 80/1268EEC as amended by Commission Directive 1999/100/EC on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

## **Please Note:**

Some illustrations in this brochure do not necessarily reflect UK specifications and may not be available. In particular, controls and some items of equipment are positioned differently for the UK.

The specifications contained in this brochure are for information purposes only and are subject to change. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen retailer prior to ordering.
