The new Scirocco

**Live the dream.
It's yours for the taking.**

Dreams really can come true. As the new Scirocco demonstrates. Because here, at last, is a sports car packed full of style and technological innovations at an affordable price. Giving you all the advantages of a real sports performer – dynamic handling, adjustable suspension, sports chassis and a luxurious interior – all within reach. Designed to turn heads, the new Scirocco will bring a new dimension to your life. So live the dream. It's yours for the taking.

Model shown is new Scirocco GT 2.0 TSI 200 PS.

Power at your fingertips, the world at your feet.

Model shown is new Scirocco GT 2.0 TSI 200 PS with optional panoramic sunroof and Bi-Xenon headlights.

Optional **Bi-Xenon headlights with static corner lights** have a clearer and brighter light, while **headlight washers** will ensure they remain clean in most conditions, giving you a clearer view of the road ahead and helping you drive more safely.

Who said looks don't matter?

Looks certainly matter when it comes to a sports car. Which is why the new Scirocco not only offers such dynamic style, with its streamlined bodyshape and matching door mirrors, door handles and bumpers, but also sporty detail, such as the curved design of the halogen headlights, perfectly complementing the body contours. There's also a host of extras, enabling you to personalise your new Scirocco to your individual taste. Such as the latest state-of-the-art DVD touch-screen navigation/radio system, Bi-Xenon headlights with headlight washers, and an electric panoramic glass sunroof, adding an extra dimension of light and space. All contributing to the overall effect that this is really something special. And hinting at the pleasure to come.

The optional **electric tilting panoramic glass sunroof** gives an uninterrupted view of the sky overhead and fills the interior with additional natural light. The sunroof enhances the interior's spaciousness, while the tilting function allows fresh air to enter and circulate freely, at the touch of a button.

Front fog lights add a striking look to the front of the vehicle, and also provide additional safety.

Dynamic '**Interlagos**' 8J x 18 alloy wheels with 235/40 R18 tyres confirm the new Scirocco's pedigree sports performance.

The **chrome twin exhaust tailpipe** that features on the new Scirocco GT 2.0 TSI 200 PS adds charisma and presence.

A style icon.

Model shown is new Scirocco GT 2.0 TSI 200 PS with optional panoramic sunroof and Bi-Xenon headlights.

Life is for living. Night-time for playing.

Model shown is new Scirocco GT 2.0 TSI 200 PS DSG with optional DVD touch-screen navigation/radio system and 'Vienna' leather upholstery.

When you specify the DSG gearbox, the standard **multifunction steering wheel** also features paddle shift, enabling you to change gear manually from the steering wheel. Interior shown features optional DVD touch-screen navigation/radio system.

Prepare yourself for a sensory experience.

Sit inside the new Scirocco and enjoy a sensory experience. Front sports seats with manual height and lumbar adjustment and rear seats with integrated head restraints, or optional 12-way electrically adjustable driver's seat specified with sumptuous 'Vienna' leather will ensure optimum comfort, while the Adaptive Chassis Control (ACC) ensures both agility and stability from a choice of Normal, Comfort or Sport preset suspension settings. The leather trimmed three-spoke multifunction steering wheel, gear knob and handbrake grip are a pure pleasure to hold, and the RCD 510 touch-screen radio/MP3 compatible six CD autochanger provides exceptional acoustics, through eight high performance speakers.

If that isn't enough, standard 2Zone electronic climate control ensures a perfect interior temperature, and the Highline multifunction computer, operated via the multifunction steering wheel, provides essential information about your journey, such as exterior temperature, average speed of your journey, and average and current fuel consumption. All considered, do you think you can resist?

Uniquely designed interior door handles give the interior styling an individual characteristic, while allowing easy access to nearby controls.

2Zone electronic climate control with automatic air recirculation provides temperature controls that can be individually adjusted for the driver and front passenger, so all passengers enjoy a comfortable journey. Heated front seats form part of the optional **Winter pack**, which also includes headlight washers, heated windscreen washer jets and low washer fluid warning light.

The MDI (Multi Device Interface) with USB and iPod cables enables you to connect external devices, allowing you hours of listening pleasure. Interior shown features optional 'Vienna' leather* upholstery.

* Some parts of leather interior will contain artificial leather.

Rear sports seats with integrated head restraints ensure rear passengers enjoy a comfortable, sporty ride. Interior shown features optional 'Vienna' leather* upholstery.

Model shown is new Scirocco GT 2.0 TSI 200 PS with optional panoramic sunroof and Bi-Xenon headlights.

Safety without compromise.

Performance is a prerequisite of any sports car. It goes without saying. But so too is safety, and here the new Scirocco more than delivers. A comprehensive package of safety features includes the sensor-controlled Electronic Stabilisation Programme (ESP) with Electronic Differential Lock (EDL) and Traction Control (ASR) which reacts to critical driving situations within milliseconds, helping to maintain control by adjusting the engine's output and controlling the speed of individual wheels. Also, an Anti-lock Braking System (ABS) helps prevent the wheels from locking when braking and is supported by Hydraulic Brake Assist (HBA) which reacts to an emergency braking situation by boosting brake pressure to help maximise braking effort. In addition, under emergency braking the hazard lights are automatically activated helping to give advanced warning to other road users.

Alongside these active safety measures, passive safety features include a curtain airbag system for front and rear passengers, front seat side impact airbags, and driver's and front passenger's whiplash-optimised head restraints, helping to protect in the event of an accident. To enhance your driving experience still further, the new Adaptive Chassis Control (ACC) lets you select Normal, Comfort or Sport setting, depending on the road conditions and driving style you require.

The new Scirocco's **safety systems** comply with the highest safety standards and have been extensively tested to ensure they provide maximum protection in all situations.

Optional **rear parking sensors** help you park your new Scirocco with the greatest of ease, aided by an audible warning and a visual display via the RCD 510 radio system's display.

As well as a **curtain airbag system** for front and rear passengers, **front seat side impact airbags** provide additional lateral protection.

The sensor-controlled **Electronic Stabilisation Programme (ESP)** recognises critical driving situations and reacts in milliseconds by controlling the speed of individual wheels, helping to bring the vehicle under control. The new **Adaptive Chassis Control (ACC)** adapts the damping control and shock absorption rate to the road conditions and driving style you require, with a choice of Normal, Comfort or Sport settings.

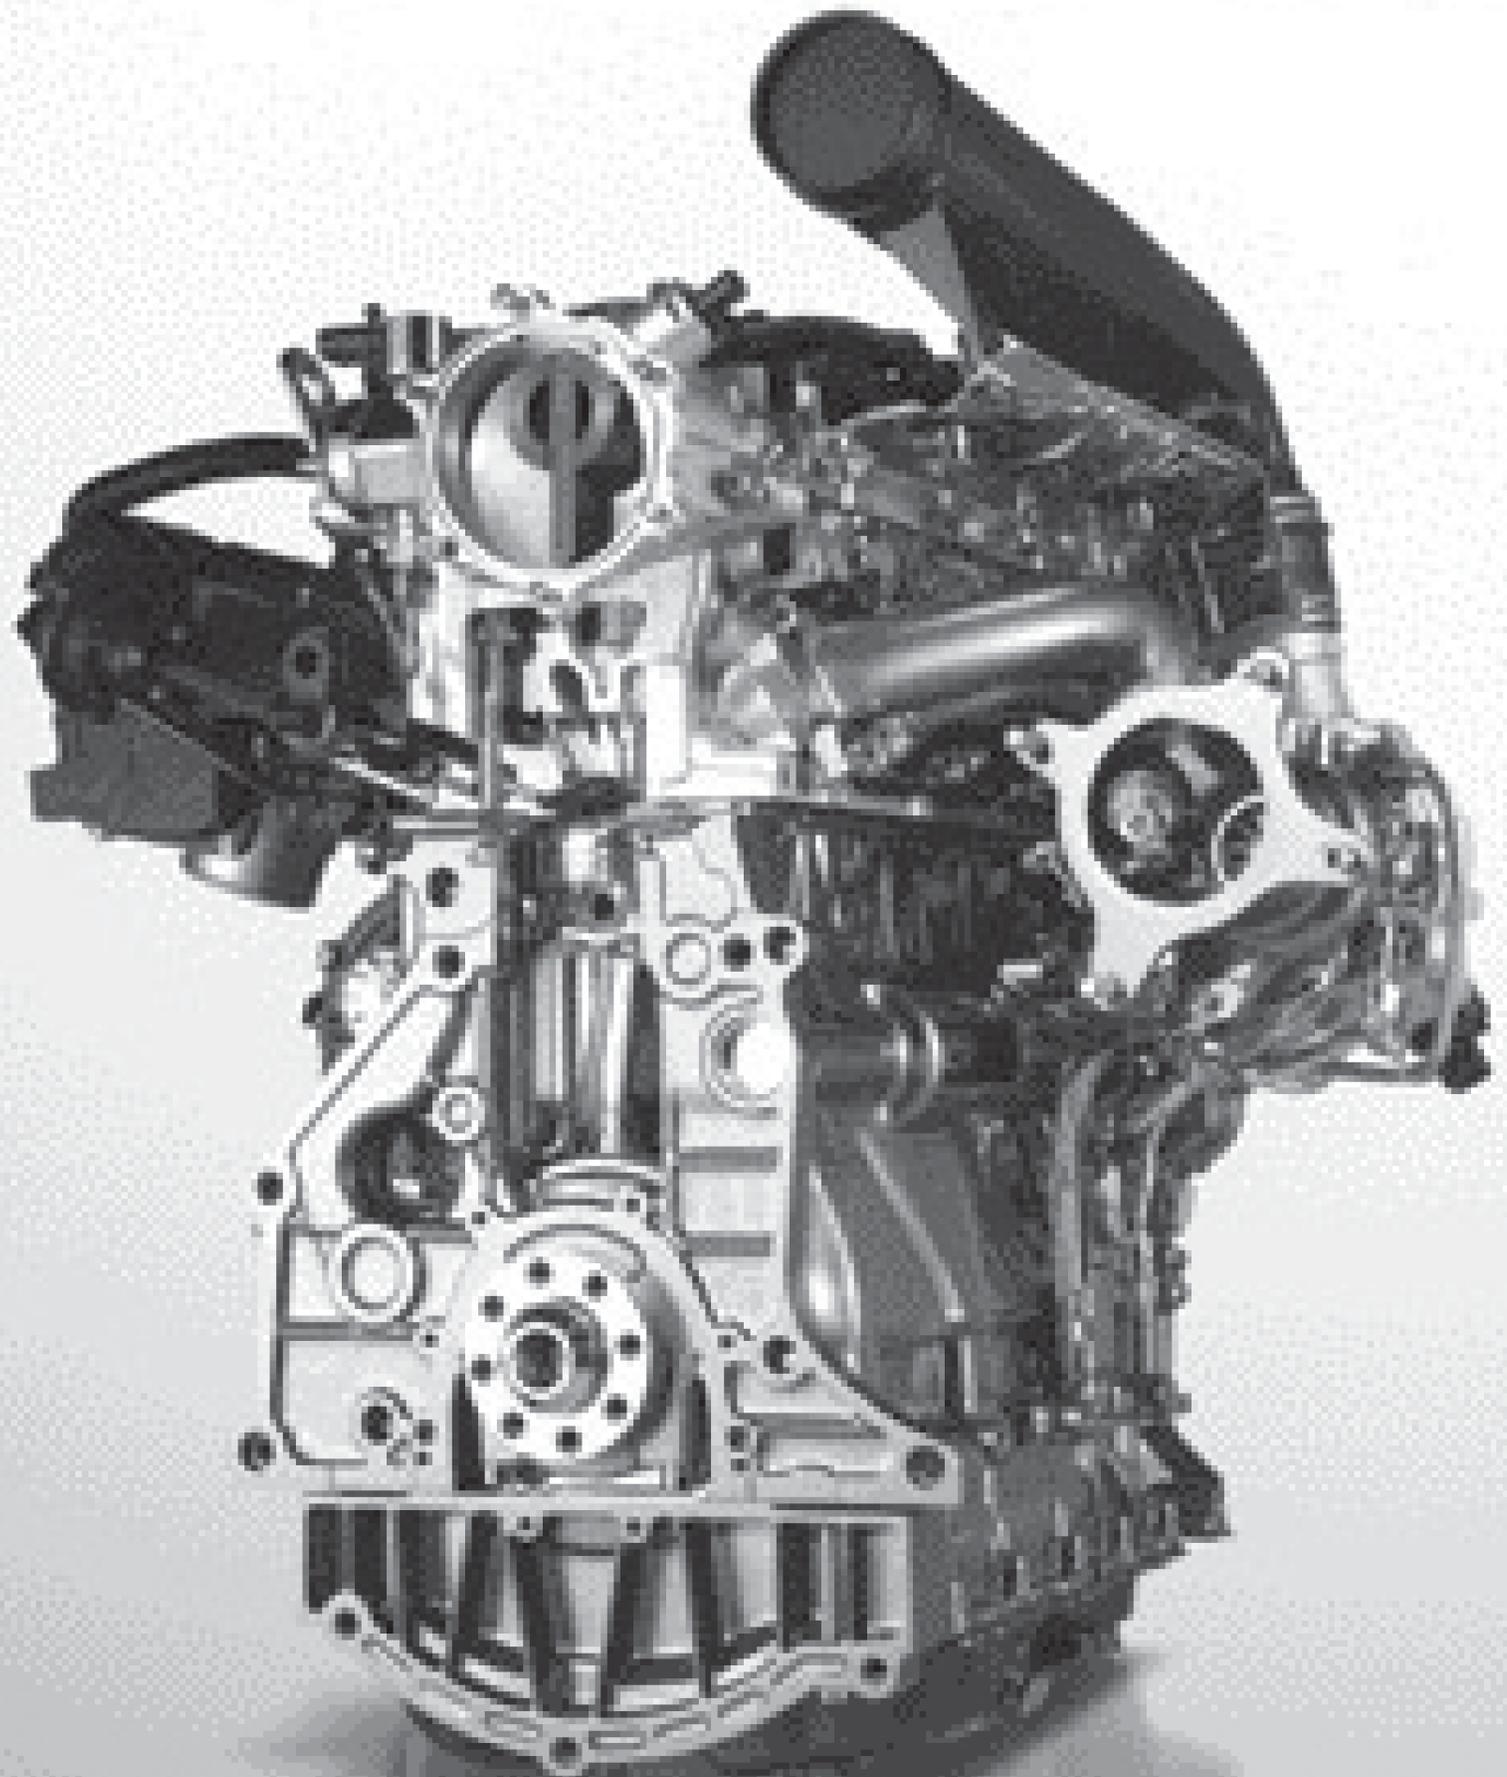

The DSG gearbox offers a genuine alternative to a manual gearbox because it is able to change gear faster than a manual gearbox and more smoothly than a conventional automatic.

Power doesn't get much more exciting.

What could be more exciting than putting your foot down and feeling the acceleration of a powerful engine? It's what sets a real sports performer apart. And in this respect, the new Scirocco excels, offering an award winning engine with phenomenal results. TSI technology delivers an outstanding combination of high performance, excellent torque and efficient fuel consumption through a combination of downsizing, direct injection and turbocharging. The truly exhilarating 2.0 litre turbocharged engine develops 200 PS and is available with a six speed manual or six speed auto DSG gearbox. In manual form, the new Scirocco will accelerate to 62 mph in 7.2 seconds on its way to a top speed of 146 mph, where the law permits, but can still achieve 37.2 mpg on the Combined fuel cycle*. Opt for the DSG gearbox and a truly impressive 7.1 seconds is all it takes to achieve 62 mph, yet it still achieves the same impressive Combined fuel cycle* figures as the manual gearbox.

The DSG gearbox offers a genuine alternative to a manual gearbox because it is able to change gear faster than a manual gearbox and more smoothly than a conventional automatic. The DSG gearbox also features an auto hold function which prevents your new Scirocco from rolling back when pulling away or during a hill start, making every journey just that little bit easier.

* Please see page 24 for fuel consumption and CO₂ emissions figures.

The DVD touch-screen navigation/radio system will guide you to your destination using all but the last 2 digits of a UK postcode and includes a 6½" colour display, 3D representation and touch-screen operation. It also plays videos and music from the DVD drive, 30 GB hard drive or via the AUX-in interface.

In addition to your DVD touch-screen navigation/radio system you can also specify an armrest-mounted six CD autochanger, in lieu of MDI (Multi Device Interface), allowing you hours of uninterrupted listening pleasure.

Enhance your vehicle's acoustics even further by specifying the 'Dynaudio' sound system. In conjunction with the DVD touch-screen navigation/radio system or standard RCD 510, the 'Dynaudio' sound system incorporates an eight channel digital amplifier delivering 300 watts through eight high performance speakers, perfectly distributed throughout the vehicle.

Optional equipment.

A range of optional extras for the new Scirocco provides a selection of aesthetic and practical features, enabling you to individualise your new Scirocco. This reflection of your personality and lifestyle makes the new Scirocco more irresistible than ever. So, why fight the temptation?

Bi-Xenon headlights with static corner lights produce a clearer, brighter light for dipped and main beam, while the headlight washer system helps remove dirt and grime, ensuring clear visibility.

Heated front seats with five preset temperature settings form part of the Winter pack, along with headlight washers, windscreen washer jets and low washer fluid warning light.

Electrically heated, adjustable and foldable door mirrors with integrated indicators can be easily operated from the comfort of the driver's seat.

For relaxed motorway driving, cruise control is the perfect answer. Operational at speeds above approximately 20 mph, the system can be set to maintain a constant speed.

Luxurious 'Vienna' leather* upholstery in Black or Truffle includes heated front sports seats which provide optimum lateral support on tight bends ensuring maximum driving fun. The electrically-adjustable driver's seat lumbar support will ensure the best possible seating position on every journey.

The 12-way electrically-adjustable driver's seat offers adjustments for lumbar support and seat back angle, enabling you to sit back and relax, enjoying the most ergonomically beneficial position for your spine. The 12-way electrically-adjustable driver's seat must be ordered in conjunction with 'Vienna' leather* upholstery.

* Some parts of leather interior will contain artificial leather.

The only way to enjoy the city lights.

Technical specification notes.

- The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- Figures are calculated in accordance with manufacturer's criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly.
- With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of unleaded Super plus. In order to achieve maximum fuel consumption benefits on the FSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.
- VDA measuring method using 200 x 100 x 50 mm blocks.

Technical specification dimensions.

Exterior Dimensions	Length, mm	4256
	Width - excluding door mirrors, mm	1810

	Elbow width - front, mm	TBA
	Elbow width - rear, mm	TBA
	Legroom - front, mm	TBA

The technology.

Engine

- Front transverse-installed engine
- 2.0 litre/200 PS⁽⁰¹⁾ (147 kW) petrol engine: four cylinder in-line engine, aluminium cylinder head, four valves per cylinder with roller rocker finger valve drive, electronic direct injection, variable inlet valve timing, programmed ignition with cylinder-selective anti-knock control, four single spark ignition coils, long-life spark plugs, exhaust gas turbocharger, three-way close-coupled pre-catalyst and underbody catalyst, lambda control

Transmission

- Front wheel drive through asbestos-free single-plate dry clutch. Hydraulic clutch-mechanism. Six speed manual, or six speed automatic DSG gear box with double joint half axle
- Six speed manual: 2.0 litre TSI 200 PS
- Six speed automatic DSG: 2.0 litre TSI 200 PS

Steering

- Electro-mechanical steering rack
- Collapsible, height and lengthways adjustable safety steering column

Running gear

- Electronic Stabilisation Programme (ESP) including Electronic Differential Lock (EDL), Traction Control (ASC) and Countersteer Support
- Front suspension through coil springs with telescopic shock absorbers, all elements integrated in chassis legs
- Rear suspension with gas pressure shock absorbers and separate springs
- Wheel control: front through chassis legs and (lower) triangular wishbones (directionally stabilising steering roll radius)
- Wheel control: rear through four-link suspension with independent wheels suspension
- Front and rear anti-roll bar

Brakes

- Electronically controlled Anti-lock Braking System (ABS) with Electronic Brake-pressure Distribution (EBD)
- Diagonal twin-circuit brake system with ventilated front disc brakes and rear disc brakes
- Asbestos-free brake pads
- Hydraulic Brake Assist (HBA)

Volkswagen service for your peace of mind.

The Volkswagen Warranty.

Three-year Warranty.

All Volkswagen new Sciroccos come with a three-year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty. Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised Volkswagen retailer or repairer; however, this additional warranty must be purchased before the mileage reaches 60,000*. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

*All warranty work must be completed by an authorised Volkswagen retailer or repairer.

Three-year Paint Warranty.

The paintwork of the new Scirocco is covered against manufacturing defects for a period of three years. Naturally, the new Scirocco must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

12-year Body Protection Warranty.

The internal body sections and panels of the new Sciroccos are covered against rusting through from the inside for 12 years. Naturally, the new Scirocco must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

Service Intervals.

Volkswagen are pleased to offer you a choice on how your new Scirocco is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Time and Distance Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts.
- Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing.
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking.

The service intervals for the Time and Distance Service are as follows:

- Oil change service Every 10,000 miles/1 year (whichever is soonest).
- Interval service Every 20,000 miles/2 years (whichever is soonest).
- Inspection service Every 40,000 miles/3 years (whichever is soonest).

The LongLife Service is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

With the LongLife Service the vehicle can cover anywhere between 10,000[†] and a maximum of 18,000[†] miles or 24 months (whichever is soonest) between oil changes. Inspection service is typically in the third year of ownership and thereafter every second year, for vehicles with an approximate annual mileage of 10,000 miles.

[†] Please note that mileages are approximate as the service indicator system uses kilometres as the distance measurement.

Please consult your authorised Volkswagen retailer or repairer for advice and full details.

Approved Accessories.

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen approved accessories purchased from and fitted by your authorised Volkswagen retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

Extended Warranty.

You may purchase additional protection from your authorised Volkswagen retailer or repairer, or contact 0870 9000 115.

Volkswagen Finance[‡].

Volkswagen Finance specialises in providing funding solutions for Volkswagen drivers. Whether your Volkswagen is for private or business use, you can choose from a range of funding options.

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Volkswagen Finance products you can choose a fixed-cost maintenance plan to help you budget for your servicing and maintenance costs.

No matter what finance product you choose, your local Volkswagen retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs.

[‡] Volkswagen Finance is a trading name of Volkswagen Financial Services (UK) Limited. An offer of finance depends on certain conditions. Available to people over 18 in the UK only.

Volkswagen Insurance[±].

Competitive and comprehensive motor insurance designed especially for Volkswagen drivers. All new and Approved Used Volkswagens come with complimentary seven-day cover upon request – we'll e-mail a cover note straight to your retailer, enabling them to tax your car easily. This way, you can drive straight out of the showroom. Taking out annual cover is easy and it can start when the seven-day cover expires. For more information contact your local Volkswagen retailer or call 0800 051 3136.

[±] Volkswagen Insurance is underwritten and administered by Zurich Insurance Company. Volkswagen Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited which is an appointed representative of Volkswagen Financial Services (UK) Limited. Zurich Insurance Company and Volkswagen Financial Services (UK) Limited are both authorised and regulated by the Financial Services Authority.

Volkswagen Roadside Assistance.

Every new car is registered for Volkswagen Roadside Assistance for one year. This provides vehicle home and roadside recovery in the unlikely event of a breakdown in the UK and Europe (subject to conditions). Volkswagen Roadside Assistance can also be purchased for subsequent years. For full details, please contact your authorised Volkswagen retailer or repairer.

Tax Free Sales.

For full details, please contact your authorised Volkswagen retailer.

CO₂ Emission.

Increased weight of a vehicle, including higher trim levels and the addition of options will have a detrimental influence on the level of fuel consumption and CO₂ emissions produced. The CO₂ and fuel consumption figures are obtained from tests on a representative vehicle of the type, conducted and approved in accordance with Council Directive 80/1268/EEC as amended by Directive 1999/100/EC (or later) on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

Please Note:

Some illustrations in this brochure do not necessarily reflect UK specifications and may not be available.

In particular, controls and some items of equipment are positioned differently for the UK.

The specifications contained in this brochure are for information purposes only and are subject to change. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen retailer prior to ordering.

Note: We would like to advise you that telephone calls to Volkswagen Customer Care may be monitored and recorded as part of our training and quality assurance processes. All our monitoring and recording processes meet Ofcom regulations.
