

The new Golf Plus

T car. Endless possibilities.

Introducing the new Golf Plus. Specially created for those who want to get a little bit more out of life. Not only does it offer masses of extra space, but more ways of using it, thanks to a whole wealth of clever features, designed to increase its functionality, comfort and safety. Which means, if you're looking for a car offering the ultimate in flexibility, alongside the legendary build quality, style and refinements of a Golf hatchback, the new Golf Plus more than delivers. Never has one car offered so many possibilities.

Model shown is new Golf Plus SE with optional silver anodised roof rails, 17" 'Seattle' alloy wheels, 'Vienna' leather upholstery and metallic paint.

186

hands – or 93 people – have helped assemble the new Golf Plus.

10.8

metre turning circle ensures the new Golf Plus has the agility to manoeuvre easily, whether parking in a tight space or driving in city traffic. And it's still so spacious inside.

12

year warranty against rust, gives you total peace of mind whatever the weather.

154

countries are home to the new Golf Plus, allowing its exceptional comfort and quality to gain a truly international status.

7

gears on our 1.4 litre TSI DSG's transmission, ideal for maximising fuel economy and keeping CO₂ emissions down – even more efficient than the equivalent manual.

320

Nm of torque is produced between 1,750-2,500 rpm on the 2.0 litre 140 PS TDI diesel engine.

630

kilograms is the maximum weight you can load into your new Golf Plus – just in case you ever need to give a lift to a fully grown polar bear.

20

millionth of a millimetre – that's the thickness (or should we say 'thinness') of the galvanised protective coating covering the Golf Plus' chassis, which goes through 20 stages before your choice of paint is applied.

4,000

hours and about 4,500 kilometres of demanding testing – that's what every vehicle has to go through before the quality of its running gear is proven. From extreme climate conditions to salt water and bumpy roads, the Volkswagen test track shows no mercy.

2

FL = v

x A x cW x ½ PL

is the formula used to calculate the aerodynamics of the new Golf Plus. Rounded angles, a concave roofline and the flat angle of the windscreen all combine to keep wind resistance to a minimum, ensuring undisturbed airflow and enhancing performance.

90,000

nodal points are fully tested in a high-tech crash simulation, replicating the many different stresses and forces that occur in an actual crash situation – ensuring the highest levels of protection for you and your passengers.

Model shown is new Golf Plus S with optional black roof rails and metallic paint.

Over **500**

miles of freedom. On one tank of petrol.

Yes, that's right – petrol. Thanks to the economical engines of the new Golf Plus, you can cover more than 500 miles* on a single tank of fuel, not only with a diesel engine, but now with a TSI petrol engine too. A combination of direct fuel injection and intelligent turbocharging technology delivers exceptional engine efficiency, ensuring TSI engines achieve extremely economic driving, while providing maximum drive enjoyment. And it's not just your wallet that will benefit. Due to the lower CO₂ emissions, so will the environment.

* Up to 542 miles achieved on the Combined cycle for the 1.4 litre TSI 122 PS DSG.
Please see the individual specification in the engines section for fuel consumption and CO₂ emissions figures.

Model shown is new Golf Plus SE with optional silver anodised roof rails, 17" 'Seattle' alloy wheels, 'Vienna' leather upholstery and metallic paint.

The **Golf Plus badge** is made from a high-quality, scratch-resistant material, and is a stylish addition to the rear.

The **body-coloured door mirrors with integrated indicator light** add a further distinctive design feature and can easily be seen in traffic, enhancing safety levels.

The optional **silver anodised roof rails** enhance aesthetics as well as functionality, its special finish protecting it against corrosion and making it especially durable. Optional on SE models.

Black housing around the halogen main beam with integrated indicator light and permanent daytime driving lights provides a distinctive detail, integrating seamlessly with the radiator grille and giving the new Golf Plus its characteristic front.

The **newly shaped roundel** proudly stands out on the **black, high gloss radiator grille** and helps define the face of the new Golf Plus. Chrome inserts on SE models add a sporty touch and completes its stylish image.

The **tinted rear windows from the B pillar back** reduce sunlight by up to 65 per cent, ensuring a pleasant temperature within the cabin, while protecting rear passengers and luggage from unwelcome glare and enhancing privacy. Optional on SE models.

The **twin exhaust tailpipe** adds a visible sporty look to the rear of the new Golf Plus.

Excluding 1.4 litre 80 PS engine.

Design

From whichever angle you look at the new Golf Plus, its stylish exterior cannot fail to impress. Strong bodylines, distinctive edges and a streamlined shape all demonstrate the high levels of quality, comfort and performance delivered by this iconic new Volkswagen design. And while its appearance hints at the exceptional spaciousness within, it's the exterior aesthetics that really turn the eye. Whether you're looking at the front, side or the rear.

The **rear view of the new Golf Plus** is particularly impressive. Distinctive 'Cherry red' tail lights flow smoothly into the dynamic contours, complementing the overall design, and enhanced by clearly defined quick-response lights incorporating LED technology. The body-coloured rear bumper provides the perfect finishing touch.

**1,007 millimetres.
Enough headroom for even
the tallest passengers.**

Interior shown is new Golf Plus SE with optional 'Vienna' leather upholstery, carpet mats, multifunction steering wheel, 2Zone electronic climate control and metallic paint.

Numerous storage compartments. A million different combinations.

Where's the MP3 player? Next to the sunglasses? How about some spare change for parking? And what about the mobile phone? Whatever you need to store in the new Golf Plus, up to 25 storage compartments provides you with an infinite number of possibilities, ensuring you keep all your essentials within easy reach. So long journey or short, everything you need has its own home. From a water bottle, to lipstick, to CDs. All you have to do is remember where you put it.

Images shown feature standard and optional equipment and may not necessarily reflect UK upholstery availability.

The new Golf Plus S

As soon as you sit in the new Golf Plus S, you'll experience the uncompromising attention to detail and the high quality of the materials used throughout. From the contemporary upholstery to the chrome-ringed instrument panel, the cabin exudes a feeling of well-being, and is even more luxurious, comfortable and spacious than you would have guessed from the exterior.

From the black front radiator grille, rear roof spoiler and headlights with permanent daytime driving lights to the body-coloured door handles, front and rear bumpers and door mirrors with integrated indicators, you know you're looking at something special. But even the superior aesthetics of the distinctive exterior cannot prepare you for the luxury within.

The **white adjustable instrument illumination** is not only stylish, but very easy to read, whatever the light conditions.

Attractive **'Zone' cloth upholstery** is tough-wearing and durable, its dark sporty pattern designed to look fresh and clean for years to come.

Front and rear electric windows are conveniently located in the driver's door for ease of use.

'Climatic' air conditioning with semi-automatic control produces a pleasant, consistent temperature throughout the cabin.

15 inch steel wheels with full size wheel trims give a stylish look to the new Golf Plus S.

Electric windows in the front and rear, a height and reach adjustable three-spoke steering wheel, and speed-sensitive, power-assisted steering are all fitted as standard. The comfort continues with a height adjustable driver's seat, reading lights, cooled glove compartment and an RCD 210 radio/MP3 compatible CD player with four speakers, not to mention an array of storage compartments. Other features include semi-automatic air conditioning, electrically heated and adjustable door mirrors and a multifunction computer (Midline), all designed to make driving as relaxing as possible, while details such as the remote folding keys for the central locking system simply make life that little bit easier. With adjustable white instrument lighting and the atmospheric red illumination design on all dials providing an air of exclusivity throughout, the new Golf Plus S offers so much it has to be experienced to be fully appreciated.

The new Golf Plus SE

The new Golf Plus SE epitomises the height of luxury, with everything designed for your total comfort and driving pleasure. The story starts as you approach the SE, with stylish 16 inch ‘Atlanta’ alloy wheels, and a sporty black radiator grille with chrome-plated louvres setting the scene. Inside, contemporary ‘Plaza’ upholstery is both comfortable and inviting, while the leather-trimmed three-spoke steering wheel, gear knob and handbrake grip add an extra touch of luxury. The front comfort seats feature height and lumbar adjustment, while an RCD 310 radio/MP3 compatible CD player with eight speakers provides exceptional acoustics and also offers an AUX-in socket in the glovebox (in lieu of light) for connection to an external multimedia source such as an iPod or MP3 player.

Cruise control, Park Assist, parking sensors and a rain sensor are all fitted as standard, as are an alarm with interior protection, auto-dimming rear view mirror and coming/leaving home lighting function. Between the two front seats there is a comfortable centre armrest containing a storage compartment, and an additional pull-down storage area can be found in the roof console. As well as storage pockets and folding tables on the back of the front seats, the rear also has air vents, cup holders and a 12V socket, while the luggage compartment features storage areas to the left and right, luggage nets and a further 12V socket. With other features including reading lights to the front and rear, illuminated vanity mirrors and an illuminated front footwell, you can easily see why the new Golf Plus SE offers such a formidable package.

When passing a parking space at up to 19 mph, the **Park Assist system** with ultrasonic front and rear parking sensors, compares the space available with the length of the vehicle. If the space is suitable, which can be as little as 1.1 m longer than the new Golf Plus, the Park Assist parallel parking assistant automatically controls the steering as soon as you engage reverse gear. All you have to do is operate the accelerator, clutch and brake, while keeping a good lookout. **Parking sensors** also assist in less challenging parking manoeuvres by emitting both audible and visual signals, alerting the driver to any obstacles: the closer you are to an obstacle the faster the sound frequency. In addition an **Optical Parking Display** extends the functions of the parking sensors by indicating your position on the RCD 310’s monochrome audio display during parking.

The **rain sensor** activates the windscreen wipers and adjusts their speed to the intensity of the rainfall. With similar ingenuity, the **automatic dimming interior rear-view mirror** darkens if lights from a following car are too bright.

The **RCD 310 radio/MP3 compatible CD player** features eight speakers while its large screen clearly displays radio station choices or the track listings of a compatible device connected to the optional Multi Device Interface (MDI).

At speeds of over 19 mph, **cruise control** keeps your selected speed constant, enabling you to relax on longer journeys, without having to keep an eye on your speedometer.

16 inch ‘Atlanta’ alloy wheels make a lasting impression with their contemporary elegance.

Safety

The new Golf Plus is not only practical and versatile, but it also offers intelligence too, as demonstrated by its first class safety specification designed to help you manage such occurrences as bad weather, sharp bends and tight parking spaces. From curtain, front and side impact airbags to an Electronic Stabilisation Programme, these active and passive safety features help make every journey as safe as possible for all the occupants of the new Golf Plus.

Front head restraints are height-adjustable and safety-optimised, so that in the event of a collision, the distance between the head and head restraint is reduced, thereby minimising the risk of whiplash injuries.

All five seats in the new Golf Plus feature **three-point automatic seat belts**. In the front, the seat belts are height-adjustable and fitted with belt tensioners, which are designed to react within milliseconds to the airbags' trigger mechanisms.

The **front (ventilated) and rear disc brakes** deliver excellent thermal performance, even if there is a sharp rise in the temperature of the brakes.

In the event of poor visibility, the **front fog lights and static corner lighting** provide better illumination of the road ahead and are thus highly recommended for maximum safety. Optional on all models.

A **curtain airbag system, front seat side impact airbags and airbags for the driver and front passenger** are provided as standard in the new Golf Plus. The combined curtain airbag system for the driver and front passenger is deployed by crash sensors in the event of an accident to cushion the upper body and minimise the risk of injury. If a collision is registered, the airbag control device ignites the gas generator, which fills the airbags within 30 to 40 milliseconds. It goes without saying that the front passenger airbag can be deactivated, which is essential, if you wish to fit a child seat on the front passenger seat.

Image shown is for illustration purposes only and may not necessarily reflect UK specification.

For even greater safety, you can add a **side airbag system** for the rear passengers.

Fastening seat belts before every journey is a vital safety precaution – the **seat belt warning buzzer and light** for the driver and front passenger ensures you don't forget this necessary measure, even on short journeys.

The **Electronic Stabilisation Programme (ESP)**, with counter-steering assistance, prevents the vehicle going out of control in critical driving situations by intervening instantaneously in the brake and engine management systems and controlling the speed of individual wheels. The vehicle thus achieves maximum directional stability and can be brought back under control.

**Countless options.
Personalise to your
exact requirements.**

Model shown is new Golf Plus SE with optional silver anodised roof rails, front fog lights, 17" 'Seattle' alloy wheels, 'Vienna' leather upholstery and metallic paint.

The RCD 510 touch-screen radio/dash-mounted MP3 compatible six CD autochanger features a large 6½ inch colour display, with intuitive menu navigation and touch-screen operation. It also features an AUX-in socket for connection to an external multimedia source (e.g. iPod or MP3 player) and an SD memory card slot. Optional on SE models.

The RCD 310 radio/MP3 compatible CD player features eight speakers with an output of 4 x 20 watts. It also features an AUX-in socket for connection to an external multimedia source (e.g. iPod or MP3 player). Standard on SE and optional on S models.

Another option for your RCD 310 or RCD 510 is a DAB digital radio receiver, enabling you to listen to all the digital stations available in crystal clear digital sound.

* Must be ordered in conjunction with RCD 310 or RCD 510 radio systems. Radio featured is RCD 510.

Optional equipment

The latest technologies in audio playback, state-of-the-art navigations systems and connectivity provide you with the ultimate multimedia experience, enabling you to do more and enjoy more than ever before in the new Golf Plus.

The DVD touch-screen navigation/radio system will guide you to your destination using all but the last two digits of a UK postcode and includes a 6½ inch colour display. It also plays DVDs (when the vehicle is stationary) and music from the DVD drive, 30 GB hard drive or via an SD card. Optional on SE models.

The Multi Device Interface (MDI) with iPod and USB cables enables you to connect and charge a compatible device, while track selection is viewed and selected via the vehicle's radio* system. Optional on all models.

* Must be ordered in conjunction with RCD 310, RCD 510 or DVD touch-screen navigation/radio systems.

Heated front seats form part of the Winter Pack, ensuring your total comfort, especially during the winter months. The automatically heated front windscreen washer nozzles are always ready for use, even when it's frosty, while headlight washers increase safety in poor conditions. Optional on SE models.

Interior shown features optional 2Zone electronic climate control.

The newly designed **2Zone electronic climate control with automatic air recirculation system** features dual zone temperature control for the driver and front passenger, allowing each to select their individual preferred temperature. Optional on SE models.

Interior shown features optional RCD 510 radio system.

Elegant **'Vienna' leather** trim provides the ultimate in exclusivity, with a choice of stylish Corn Silk Beige or sporty Titan Black. The package includes heated front sports seats, and for additional comfort, the driver's seat also features electrically adjustable lumbar support. Long lasting, durable and easy to keep clean, leather is not only a classic, elegant and comfortable material, but also exudes a sense of luxury, enhancing the interior ambiance still further. Optional on SE models.

Some parts of leather interior will contain artificial leather.

In the event of poor visibility, the **front fog lights with static corner lighting** provide better illumination of the road ahead and are thus highly recommended for maximum safety. Optional on all models.

The **multifunction computer 'Highline'** with additional vehicle set-up function provides important information while you are driving, including average speed and fuel consumption, exterior temperature, range of the fuel tank and destination of the optional DVD navigation/radio system. Standard on SE and optional on S models.

The **Storage pack** includes a drawer beneath the front passenger's seat, luggage nets in the boot area, and storage trays in the overhead console, for all the items you need to keep close at hand. Optional on all models.

The **multifunction leather steering wheel** is exceptionally user friendly, enabling you to control a whole host of functions, such as the radio or multifunction computer (Highline) display, without taking your hands off the wheel. Finished in high grade leather, it is pleasant to hold, as well as providing excellent grip and adding a touch of elegance to the interior. Optional on all models.

Interior shown features optional 'Vienna' leather upholstery.

The **electric slide/tilt glass sunroof** can easily be operated at the touch of a button, enabling you to let light and fresh air into the interior, regardless of the weather conditions. Tinted glass ensures adequate sun protection. Optional on SE models.

The **three-spoke leather-trimmed steering wheel** enhances the sporty feel, of the new Golf Plus and is echoed by the gear knob and handbrake grip also covered in high quality leather, enhancing the unique cockpit design. Standard on SE and optional on S models.

The **Rear-view camera** gives a clear view of the rear of the vehicle on the radio display, helping you park more easily and safely. Only in conjunction with the optional RCD 510 radio or DVD touch-screen navigation/radio system. Optional on SE models.

Interior shown features optional RCD 510 radio system.

Wheels

Whether you're looking for a stylish 15 inch or a sporty lightweight 17 inch alloy wheel, Volkswagen offers a choice of wheel options for the new Golf Plus, ensuring you find exactly what you want. And whichever you choose, there are three things of which you can be sure: its superior quality, design and driving characteristics.

'Seattle' 7J x 17 alloy wheels with 225/45 R17 tyres, including sports suspension lowered by approximately 15 mm, provide a particularly sporty look to the exterior. Optional on SE models.

Full size 6J x 15 steel wheels with 195/65 R15 tyres give the S model its unmistakable stylish appearance. Standard on S models.

'Atlanta' 6½J x 16 alloy wheels with 205/55 R16 tyres add a touch of pure dynamism. Standard on SE models.

'Wellington' 6½J x 15 alloy wheels with 195/65 R15 tyres offer a distinctive look, due to the ten spokes in two different understated designs. Optional on S models.

Engines and gearboxes

Volkswagen's ground-breaking engine and gearbox technology ensures exceptional performance. A choice of some of the most innovative engines available means you can look forward to driving a car delivering the ultimate sporty drive, yet still offering great fuel economy and environmental credentials.

The dual clutch **Direct Shift Gearbox (DSG)** represents a milestone in the development of the latest gearbox technology. This innovative automatic gearbox from Volkswagen shifts smoothly and imperceptibly into the pre-selected next gear. Such extremely short reaction times and direct response behaviour make dynamic acceleration twice as much fun. Depending on the engine specification, the six or seven speed gearbox is not only highly dynamic, but also fuel efficient.

Available as a **five speed or six speed manual**, these gearboxes transmit power with short, accurate shifts and very smooth handling, making it easy to drive at the right engine speed.

The combination of direct fuel injection and intelligent turbocharging technology enables **petrol engines with TSI technology** to work particularly efficiently, offering such advantages as high performance, high torque and reduced fuel consumption. The TSI engine features a sophisticated turbocharger, resulting in excellent driveability and performance throughout the range. The 1.4 litre 122 PS TSI engine can accelerate the new Golf Plus to 62 mph in 10.2 seconds on its way to a top speed of 121 mph, where the law permits.

Please see the individual specification in this section for fuel consumption and CO₂ emissions figures.

The **TDI diesel engine with common rail technology** is a highly efficient and quiet combustion engine, combining exceptional economy with impressive pulling power and smooth running. The 2.0 litre 110 PS TDI engine is capable of achieving 55.4 mpg on the Combined cycle, while producing only 134 g/km of , yet can accelerate the new Golf Plus to a top speed of 117 mph where the law permits.

Please see the individual specification in this section for fuel consumption and CO₂ emissions figures.

S – 1.4 litre 80 PS

Technical specification

		Manual	
Engine	Engine type	Four cylinder petrol	
	Cubic capacity, ltrs/cc	1.4/1390	
	Max. output, PS ⁽⁰¹⁾ /kW at rpm	80/59 5000	
	Max. torque, lbs.ft/Nm at rpm	97/132 3800	
	Gearbox	Five speed manual	
Weights, kgs	Unladen weight ⁽⁰²⁾	1262	
	Gross vehicle weight	1890	
	Payload ⁽⁰²⁾	628	
	Axle load limit: Front Rear	960 980	
Trailer load limits, kgs ⁽⁰³⁾	Braked 12% incline	800	
	Unbraked	660	
	Towbar load limit	75	
	Max. roof load	75	
Performance	Top speed (where the law permits), mph (km/h)	105 (169)	
	Acceleration, secs 0 - 62 mph	14.9	
	ABI insurance group	4	
Environmental information	Fuel grade, minimum	Unleaded, 95 RON ⁽⁰⁴⁾	
	Fuel tank capacity, galls/ltrs	12.1/55	
	Official fuel consumption, mpg/ltr per 100 km ⁽⁰⁶⁾		
	Urban	32.5/8.7	
	Extra-urban	52.3/5.4	
	Combined	42.8/6.6	
	Official CO ₂ emission, g/km ⁽⁰⁷⁾	154	
	Emission class	EURO 5	
	Noise, dB	71.0	

Notes.

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer's criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of unleaded Super plus. In order to achieve maximum fuel consumption benefits on the TSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- 05) The use of RME and FAME (bio diesel) is not possible.
- 06) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 07) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer's criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of unleaded Super plus. In order to achieve maximum fuel consumption benefits on the TSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- 05) The use of RME and FAME (bio diesel) is not possible.
- 06) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 07) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

SE – 2.0 litre TDI 140 PS

Technical specification

		Manual	Automatic DSG
Engine	Engine type	Four cylinder diesel	Four cylinder diesel
	Cubic capacity, ltrs/cc	2.0/1968	2.0/1968
	Max. output, PS ⁽⁰¹⁾ /kW at rpm	140/103 4200	140/103 4200
	Max. torque, lbs.ft/Nm at rpm	236/320 1750-2500	236/320 1750-2500
	Gearbox	Six speed manual	Six speed auto DSG
Weights, kgs	Unladen weight ⁽⁰²⁾	1418	1430
	Gross vehicle weight	2040	2060
	Payload ⁽⁰²⁾	622	630
	Axle load limit: Front Rear	1120 970	1140 970
Trailer load limits, kgs ⁽⁰³⁾	Braked 12% incline	1500	1500
	Unbraked	740	750
	Towbar load limit	75	75
	Max. roof load	75	75
Performance	Top speed (where the law permits), mph (km/h)	127 (204)	126 (202)
	Acceleration, secs 0 - 62 mph	9.8	9.8
	ABI insurance group	8	8
Environmental information	Fuel grade, minimum	Diesel ⁽⁰⁵⁾	Diesel ⁽⁰⁵⁾
	Fuel tank capacity, galls/ltrs	12.1/55	12.1/55
	Official fuel consumption, mpg/ltr per 100 km ⁽⁰⁶⁾		
	Urban	43.5/6.5	38.7/7.3
	Extra-urban	64.2/4.4	60.1/4.7
	Combined	55.4/5.1	50.4/5.6
	Official CO ₂ emission, g/km ⁽⁰⁷⁾	135	146
	Emission class	EURO 5	EURO 5
	Noise, dB	72.0	69.0

Notes.

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer's criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of unleaded Super plus. In order to achieve maximum fuel consumption benefits on the TSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- 05) The use of RME and FAME (bio diesel) is not possible.
- 06) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 07) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

Engines

- Front transverse-installed engine
- 1.4 litre/80 PS ⁽⁰¹⁾ (59 kW) petrol engine: Four cylinder in-line engine, aluminium/alloy cylinder block, aluminium cylinder head with double overhead camshaft, four valves per cylinder
- 1.4 litre/122 PS ⁽⁰¹⁾ (90 kW) petrol engine: CAXA TSI engine with homogeneous mode (Lambda 1), stratified high-pressure start, double injection catalytic converter heating, turbocharger with waste gate, air-to-liquid charge-air cooling, maintenance-free timing chain, plastic intake manifold with integrated intercooler, continuous inlet camshaft timing adjustment, grey cast iron cylinder block, steel crankshaft, duo-centric oil pump, dual-circuit cooling system. Fuel system regulated according to requirements using high-pressure fuel pump with integrated pressure limiting valve
- 2.0 litre/110 PS ⁽⁰¹⁾ (81 kW) common rail diesel engine: TBA
- 2.0 litre/140 PS ⁽⁰¹⁾ (103 kW) common rail diesel engine: EU4 emissions standard (EU5 compliant), four cylinder in-line engine, four valves per cylinder, aluminium-silicon alloy cylinder head, toothed backlash compensator, intake manifold with electric continual tumble flap control, electronically controlled common rail direct injection system with Bosch high pressure pump (up to 1800 bar) and 8-hole piezo injector units, pre-supply electronic fuel pump, oil cooler, intercooler, exhaust gas recirculation, additional coolant pump, turbocharger with variable turbine geometry, catalytic converter and Diesel Particulate Filter (DPF)

Transmission

- Front wheel drive through asbestos-free single-plate dry clutch. Hydraulic clutch-mechanism. Five or six speed manual, six or seven speed automatic DSG gearbox with double joint half axles
- Five speed manual: 1.4 litre 80 PS, 2.0 litre TDI 110 PS
- Six speed manual: 1.4 litre TSI 122 PS, 2.0 litre TDI 140 PS
- Six speed automatic DSG: 2.0 litre TDI 140 PS
- Seven speed automatic DSG: 1.4 litre TSI 122 PS

Running gear

- Electronic Stabilisation Programme (ESP) including Electronic Differential Lock (EDL), Traction Control (ASR) and Countersteer Support
- Front suspension through coil springs with telescopic shock absorbers, all elements integrated in chassis legs
- Rear suspension with gas pressure shock absorbers and separate springs
- Wheel control: front through chassis legs and (lower) triangular wishbones (directionally stabilising steering roll radius)
- Wheel control: rear through four-link suspension with independent wheel suspension
- Front and rear anti-roll bar

Steering

- Electro-mechanical steering rack
- Collapsible, height and lengthways adjustable safety steering column

Brakes

- Electronically controlled Anti-lock Braking System (ABS) with Electronic Brake-pressure Distribution (EBD)
- Diagonal twin-circuit brake system with ventilated front disc brakes and rear disc brakes
- Asbestos-free brake pads

Dimensions

Exterior dimensions

Length, mm	4204
Width – excluding door mirrors, mm	1759
Width – opened front/rear doors, mm	3638/3646
Height, mm	1592
Height – opened bonnet/floor, mm	1804
Height – opened tailgate/floor, mm	2048
Wheelbase, mm	2578
Turning circle, mm	10800

Interior dimensions

Effective headroom – front, mm (with sunroof)	1007 (980)
Effective headroom – rear, mm (with sunroof)	976 (976)
Elbow width, front, mm	1468
Elbow width, rear, mm	1452

Volkswagen service

The Volkswagen Warranty.

Three-year Warranty.

All Volkswagen new Golf Plus’ come with a three-year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer’s warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty. Should the mileage exceed 60,000 miles within the first two years, the manufacturer’s two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised Volkswagen retailer or repairer; however, this additional warranty must be purchased before the mileage reaches 60,000*. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

* All warranty work must be completed by an authorised Volkswagen retailer or repairer.

Three-year Paint Warranty.

The paintwork of the new Golf Plus is covered against manufacturing defects for a period of three years. Naturally, the new Golf Plus must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

12-year Body Protection Warranty.

The internal body sections and panels of the new Golf Plus’ are covered against rusting through from the inside for 12 years. Naturally, the new Golf Plus must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

Approved Accessories.

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen approved accessories purchased from and fitted by your authorised Volkswagen retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

Service Intervals.

Volkswagen are pleased to offer you a choice on how your new Golf Plus is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Time and Distance Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts.
- Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing.
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking.

The service intervals for the Time and Distance Service are as follows:

- Oil change service
Every 10,000 miles/1 year (whichever is soonest).
- Interval service
Every 20,000 miles/2 years (whichever is soonest).
- Inspection service
Every 40,000 miles/3 years (whichever is soonest).

The LongLife Service is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

With the LongLife Service the vehicle can cover anywhere between 10,000[†] and a maximum of 18,000[†] miles or 24 months (whichever is soonest) between oil changes. Inspection service is typically in the third year of ownership and thereafter every second year, for vehicles with an approximate annual mileage of 10,000 miles.

[†] Please note that mileages are approximate as the service indicator system uses kilometres as the distance measurement. Please consult your authorised Volkswagen retailer or repairer for advice and full details.

Extended Warranty.

You may purchase additional protection from your authorised Volkswagen retailer or repairer, or contact 0870 9000 115.

Volkswagen Finance[‡].

Volkswagen Finance specialises in providing funding solutions for Volkswagen drivers. Whether your Volkswagen is for private or business use, you can choose from a range of funding options.

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Volkswagen Finance products you can choose a fixed-cost maintenance plan to help you budget for your servicing and maintenance costs.

No matter what finance product you choose, your local Volkswagen retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs.

[‡] Volkswagen Finance is a trading name of Volkswagen Financial Services (UK) Limited. An offer of finance depends on certain conditions. Available to people over 18 in the UK only.

Volkswagen Insurance[±].

Competitive and comprehensive motor insurance designed especially for Volkswagen drivers. All new and Approved Used Volkswagens come with complimentary seven-day cover upon request – we’ll e-mail a cover note straight to your retailer, enabling them to tax your car easily. This way, you can drive straight out of the showroom. Taking out annual cover is easy and it can start when the seven-day cover expires. For more information contact your local Volkswagen retailer or call 0800 051 3136.

[±] Volkswagen Insurance is underwritten and administered by Zurich Insurance plc. Volkswagen Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited which is an appointed representative of Volkswagen Financial Services (UK) Limited. Zurich Insurance plc and Volkswagen Financial Services (UK) Limited are both authorised and regulated by the Financial Services Authority.

Volkswagen Roadside Assistance.

Every new car is registered for Volkswagen Roadside Assistance for one year. This provides vehicle home and roadside recovery in the unlikely event of a breakdown in the UK and Europe (subject to conditions). Volkswagen Roadside Assistance can also be purchased for subsequent years. For full details, please contact your authorised Volkswagen retailer or repairer.

Tax Free Sales.

For full details, please contact your authorised Volkswagen retailer.

CO₂ Emission.

Increased weight of a vehicle, including higher trim levels and the addition of options will have a detrimental influence on the level of fuel consumption and CO₂ emissions produced.

The CO₂ and fuel consumption figures are obtained from tests on a representative vehicle of the type, conducted and approved in accordance with Council Directive 80/1268/EEC as amended by Directive 1999/100/EC (or later) on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

Please Note:

Some illustrations in this brochure do not necessarily reflect UK specifications and may not be available. In particular, controls and some items of equipment are positioned differently for the UK.

The specifications contained in this brochure are for information purposes only and are subject to change. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen retailer prior to ordering.

Note: We would like to advise you that telephone calls to Volkswagen Customer Care may be monitored and recorded as part of our training and quality assurance processes. All our monitoring and recording processes meet OfTel regulations.
