The Golf SV
Ready for life’s everyday challenges.

Effectively adaptable, the Golf SV takes things in its stride, whatever you throw at it. Versatile, ergonomic and refined, it has the flexibility and spaciousness to provide simple, practical solutions to many of your everyday challenges.

Model shown is Golf SV GT with optional Bi-xenon headlights, 18” ‘Serron’ alloy wheels and metallic paint.

Front cover model shown is Golf SV GT with optional Bi-xenon headlights, 18” ‘Serron’ alloy wheels and metallic paint.
The full package. Good looking, smart and refined.

You don’t get a second chance to make a good first impression, which is why those initial few seconds are so important. But that’s all you need with the Golf SV. Once you’ve seen its sculpted design you’ll be smitten. And if you think the exterior is sporty and refined, wait until you see the interior.
01. Electrically adjustable door mirrors, located on the driver’s side, passenger’s side, and also heated, ensuring ice and frost-free visibility even in winter. Standard on all models. Image shown features optional metallic paint.

02. Front fog lights provide better illumination of the road ahead and also help to make you more visible to other road users, whether you're driving through fog, heavy rain or snow. The static cornering function gives greater illumination on bends, which aids driving in adverse conditions. Standard on all models. Image shown features optional metallic paint.

03. Two-piece rear lights help form an aerodynamic trailing edge and take up the contour of the character line, flowing into the sporty rear shoulder and helping to ensure you are clearly visible to those behind. Image shown features optional metallic paint.

04. Bi-xenon headlights with static cornering function provide excellent illumination of the road ahead, ensuring greater visibility when driving at night. Automatic range adjustment alters the light field according to the course of the road, vehicle tilt and speed. Washers for the headlight washers and low washer fluid warning light help keep your headlights free from dirt. Optional on SE, SE BlueMotion and GT models. You can also specify this option with additional dynamic curve lighting and LED daytime running lights on GT models. Image shown features optional dynamic curve lighting, including dynamic curve lighting, LED daytime running lights and metallic paint.
Why worry about taking too much luggage? There’s room for lots and lots in the Golf SV.

Thankfully, the question of where to put all your luggage will never occur in the Golf SV. With a maximum boot volume in excess of 1,500* litres, there’s plenty of room for all your travel needs, and with various different interior layout options, you can easily transport extra or bulky items conveniently and securely. All of which means one thing: there’s no need to leave anything behind. In fact, you can take even more with you.

* Please see page 45 for full details of dimensions.
The generous boot space in the Golf SV provides you with loads of flexibility. The boot floor is height adjustable and can be removed if you need extra space. Likewise, by folding down the rear seats, you can increase the volume of the boot space from 350* litres (590 litres with the rear seats moved forward). Or by folding down the optional folding front seat backrest, even more space is created, allowing you to transport objects as long as 2.48 metres. And if you want to remove the luggage cover (not shown), you can easily store it beneath the double boot floor.

Images shown feature optional ‘Vienna’ leather upholstery, Discover Navigation Pro touch-screen navigation/DVD radio system, panoramic sunroof, folding front seat backrest and metallic paint.

* Please see page 45 for full details of dimensions.

Model shown is Golf SV GT with optional ‘Vienna’ leather upholstery, panoramic sunroof, metallic paint and Varioflex seating.
The Interior.

The Golf SV provides plenty of space for your everyday requirements. The split-folding 40:20:40 rear seat backrest can be moved forwards and backwards by up to 18cm, providing plenty of space for the longest legs or allowing you to store bulky objects in the boot. Image shown features optional ‘Vienna’ leather* upholstery.

No more objects flying about in the front. Thanks to a useful storage compartment in the centre console, things such as sunglasses and documents can be quickly and easily stowed away. Please note, when the optional ‘Dynaudio’ soundpack is specified, a speaker is fitted in lieu of the storage compartment in the centre console.

Robust and easily accessible storage compartments in the front and rear doors provide a home for drinks, sweets, street maps and other items, helping you to keep the interior clean and tidy. Image shown features optional ‘Vienna’ leather* upholstery.

Folding tables on the rear of the front seats are a handy addition, helping to make the journey even more comfortable for rear seat passengers with their practicality. Standard on SE, SE BlueMotion and GT models. Image shown features optional ‘Vienna’ leather* upholstery.

Folding tables on the rear of the front seats are a handy addition, helping to make the journey even more comfortable for rear seat passengers with their practicality. Standard on SE, SE BlueMotion and GT models. Image shown features optional ‘Vienna’ leather* upholstery.

* Some parts of leather interior will contain artificial leather.
Room for even the tallest of people.

It’s a fact that people are getting taller. But thanks to the Golf SV’s spacious passenger compartment, there’s room for the tallest too. And not only does the extra space provide greater visibility, enabling you to sit comfortably, the increased seat height means it’s easy to get in and out, and you have an elevated view of the road. With so much space, no one need ever feel restricted in the Golf SV.
The Equipment.

The front passenger compartment, creating a crisp atmosphere. Standard on GT models.

Storage compartments can be found in the centre console and also integrated within the front centre armrest, with a further useful storage space located between the armrest and gear knob for smaller items such as coins. ‘Golf’ thermo mug and mobile phone/smartphone lashing strap are available from the Volkswagen accessories collection. For more information, contact your authorised Volkswagen retailer or visit www.volkswagen.co.uk

The ‘Dynaudio’ soundpack ensures exceptional acoustics, with a total output of 400 watts delivered through a 10 channel digital amplifier and nine speakers. Optional on SE and GT models.

The Discover Navigation touch-screen navigation/radio system with Car-Net ‘Guide and Inform’ includes a 6.5 inch colour touch-screen for navigation, CD and radio functions, and has preloaded European-navigation data. 3D/2D map view, three calculated routes (Fast, Short, Eco), dynamic navigation based on TMC+, branded points of interest and Speed Limit Display. Car-Net ‘Guide and Inform’ functionality allows online access for a period of three years to a range of useful information such as traffic, fuel pricing, parking space availability, weather and news feeds. The system also includes online navigation software updates, enabling you to download the latest navigation map data. Standard on GT and optional on all other models.

Dynamic Chassis Control (DCC) offers you a choice of suspension settings: Sport, Comfort and Normal, depending on the type of ride you prefer. Optional on SE (not with 110 PS and 125 PS engines) and GT models. Image shown features optional Discover Navigation Pro touch-screen navigation/DVD radio system.

The Discover Navigation Pro touch-screen navigation/RDS radio system with integrated voice activation, Car-Net ‘Guide and Inform Plus’ and Car-Net ‘App-Connect’ responds to spoken voice commands for navigation functions, and has an 8.0 inch colour touch-screen control system for navigation, DVD, CD and radio functions. Features include a 64 GB SSD hard drive, preloaded European navigation data, 3D map view, three calculated routes (Fast, Short, Eco), dynamic navigation based on TMC+, branded points of interest, Speed Limit Display, offline display from JPEG and PNG files and two SD card readers. Car-Net ‘App-Connect’ combines the functionality of Apple ‘CarPlay’ , Google ‘Android Auto’ and ‘MirrorLink’ ™ allowing the ‘mirroring’ of a smartphone display and operation of certified apps including audio and voice control (if supported by the app) on the infotainment touch-screen via a USB connection.

Car-Net ‘Guide and Inform Plus’ functionality allows online access, for a period of three years, to a range of useful information such as traffic, fuel pricing, parking space availability, weather, news feeds and Google Earth. The system also includes online navigation software updates, enabling you to download the latest navigation map data. Optional on SE, SE BlueMotion and GT models.

Ambient lighting in the front door armrests and below the trim provides low-level light for the front passenger compartment, creating a crisp atmosphere. Standard on GT models.

Interior shown is Golf SV GT with optional Discover Navigation Pro touch-screen navigation/DVD radio system, climate control – 2Zone electronic air conditioning and metallic paint.

1 Car-Net ‘Guide and Inform’ and ‘Guide and Inform Plus’ services are accessed via a compatible mobile device. Please see www.volkswagen.co.uk for more information. The actual Car-Net ‘Guide and Inform’ service is provided by Inrix and the Car-Net ‘Guide and Inform Plus’ service is provided by Inrix and Google. The ‘App-Connect’ service can only be used if your smartphone supports Car-Net ‘App-Connect’. For more information please visit the Volkswagen UK website. Please also note: If Car-Net ‘Guide and Inform’/‘Guide and Inform Plus’/‘App-Connect’ is not available on your model, you can still access the TMC and Speed Limit Display features through your infotainment system. Please note: TMC and Speed Limit Display functions are not available with the 1.2 TSI Petrol engine.

2 Speed Limit Display only reflects national speed limits and does not show temporary speed limit restrictions, or where permanent changes to speed limits are made in-between map updates.

Blue sky thinking.

Calm and relaxing, it’s no wonder so many people like the colour blue. And there’s no better way to enjoy a brilliant blue sky when you’re driving than with a panoramic sunroof. Not only does it give you a spectacular view of the sky above, but also adds an extra dimension of light and space, creating a wonderfully relaxing interior ambience. Optional on SE and GT models.
The entry-level S model offers an impressive level of standard equipment, including the latest-generation Composition Media system with 6.5 inch colour touch-screen that displays the DAB digital radio, information, Think Blue. Trainer – driver tips and journey analysis, car information display, title and cover art display and for compatible Android smartphones, the SMS functionality which allows you to read, compose and send SMS messages using the touch-screen display, while the vehicle is stationary. Bluetooth phone and audio connection now allows simultaneous pairing of two compatible mobile devices*, while the Multifunction computer, electric windows front and rear, electrically heated and adjustable door mirrors, and a useful centre armrest provide the characteristic look, feel and sportiness of a Golf. Specify the BlueMotion and you get improved efficiency over the Golf SV S and enhanced exterior aesthetics, thanks to the addition of 15 inch ‘Lyon’ alloy wheels with low rolling resistance tyres, black front air intake and lowered sports suspension.

* Devices must be Bluetooth compatible, please contact your authorised Volkswagen retailer for specific phone compatibility.

The Golf SV S and BlueMotion.

The Golf SV SE.

Luxury, style and comfort go hand in hand in the Golf SV SE. 16 inch ‘Toronto’ alloy wheels, black front air intake and radiator grille with chrome trimmed inserts set the exterior scene. While inside, adding to the S specification, the refined interior features a leather trimmed three-spoke multifunction steering-wheel and gear knob, multifunction computer with 3.5 inch TFT screen and front comfort seats with height and lumbar adjustment. The SE is equipped with a range of driver assistance systems including a Driver profile selection, Adaptive Cruise Control (ACC) including Front Assist and City emergency braking system, while SE and SE BlueMotion models both benefit from a Driver Alert system and along with a dusk sensor, rain sensor, automatically dimming interior rear-view mirror and automatic coming/leaving home lighting function, ensure a level of specification that is truly impressive. SE BlueMotion models, which boasts all the luxury and style of the SE, plus all the benefits of the BlueMotion include an aerodynamic black front air intake and black radiator grille with blue stripe, low rolling resistance tyres and sports suspension lowered by approximately 15mm to help aerodynamic efficiency.

Please note, roof rails and Adaptive Cruise Control (ACC) including Front Assist and City emergency braking system are not standard on SE BlueMotion models.

Interior shown is Golf SV SE with optional climate control – 2Zone electronic air conditioning and metallic paint.

The Golf SV SE and SE BlueMotion.
The average person sits for 5 hours every day, there’s nothing more important than sitting comfortably, especially when you’re driving. Which is why the top-of-the-range Golf SV GT is equipped with front sports seats upholstered in Alcantara upholstery with ‘Global’ cloth side bolsters, featuring height and lumbar adjustment enabling you to select the optimum driving position for your spine while you drive, and not just for your back but the whole body. The leather trimmed three-spoke multifunction steering wheel means you can carry out several functions without taking your hands off the wheel. Other excellent features to help with your journey, and make it as stress-free as possible include the Discover Navigation system with 2D/3D map view, ambient lighting with front footwell illumination, remote electrically foldable door mirrors, front and rear parking sensors, and carpet mats front and rear. Externally, the GT is equipped with eye-catching 17 inch ‘Dijon’ alloy wheels, silver anodised roof rails, black radiator grille with chrome trimmed inserts and roundel surround, and chrome-plated side window surrounds, along with front fog lights, lowered sports suspension and rear tinted glass from B pillar backwards, approximately 65% tinted completing the sports styling.

The Golf SV GT.
The average person observes no more than 5 objects per second.

With today’s roads so busy, you need to keep your full concentration at all times. Which is why the Golf SV is available with a whole raft of driver assistance systems to give you a helping hand on all your journeys. Such as Front Assist, a radar sensor controlled distance monitoring system, City emergency braking and cruise control with speed limiter, which gives you intelligent control of your driving speed by automatically adjusting acceleration and braking, allowing you to concentrate on the road ahead and enjoy the drive.

Please refer to your Volkswagen owner’s manual for information on system parameters and official guidance on use and operation of all our technology.
The Driver’s assistance.

Lane Assist with Side scan is a camera controlled warning system that warns if your vehicle drifts out of its lane. The Side scan radar sensor controlled warning system monitors your blind spot where you change lanes. This system also features a rear traffic alert which detects oncoming vehicles when reversing out of parking spaces, and brakes automatically if the driver does not apply the brakes. Also included in this option is High Beam Assist which ingeniously senses the lights from oncoming vehicles and automatically switches between dipped and main beam accordingly. It also senses vehicles you are approaching from the rear and warns your main beams is dipped in order to avoid dazzling the vehicle in front. Optional on SE, SE BlueMotion and GT models. Image shown features optional metallic paint.

Also available with the Lane assist with Side scan option is Dynamic Light Assist. Automatic sensors detect other road users and control part of the headlight beams accordingly. If dazzling other road users cannot be prevented, the light distribution is automatically set to dipped beam headlight beams. Optional on SE, SE BlueMotion and GT models in conjunction with optional Bi-Xenon headlights.

The Park Assist system not only makes parallel parking easier, but also helps you reverse park into a space of approximately 90 degrees to the kerb. Using ultrasonic parking sensors, Park Assist will detect a parking space large enough for either bay or parallel parking. Once the vehicle is in reverse, all the driver has to do is operate the pedals, and keep a lookout, while the Golf SV steers itself into its chosen space. Optional on GT models. Park Assist including parking sensors is optional on SE, SE BlueMotion and GT models.

Adaptive Cruise Control (ACC) including Front Assist, radar sensor controlled distance monitoring system, City emergency braking system, cruise control and speed limiter automatically adjusts your vehicle to the speed of the vehicle in front, preventing you from getting too close, and braking to a stop if necessary. When approaching another vehicle at excessive speed, it can generate enough braking force to help reduce the severity of a collision or possibly even prevent the collision entirely. Standard on SE and GT models. Image shown features optional Discover Navigation Pro touch-screen navigation/DVD radio system.

Dynamic Chassis Control (DCC) offers you a choice of three suspension settings: Sport, Comfort or Normal. At the touch of a button, depending on your choice, the system adjusts the damping, enabling you to adapt your Golf SV to suit the road and your driving style. Optional on SE (not with 110 PS and 125 PS engines) and GT models. Image shown features optional Discover Navigation Pro touch-screen navigation/DVD radio system.

Please refer to your Volkswagen owner’s manual for information on system parameters and official guidance on use and operation of all systems. Images shown are for illustration purposes only and may not necessarily reflect UK specification.

Note: The addition of larger optional wheels may result in a higher CO₂ emission figure and change in VED band, and subsequently an increase in the Manufacturer's Recommended 'On the road' Retail price. Please see page 46 for full details.
Think Blue.

BlueMotion Technologies*

- Turbocharged engines deliver more power when you need it and use less fuel when you don’t.
- Start/Stop technology saves fuel by automatically switching off the engine when the car isn’t in motion.
- Brake energy recuperation system makes use of energy that’s usually lost when you brake.
- Low-rolling resistance tyres reduce the friction between the tyre and the road, meaning it takes less energy – and less fuel – to go further.

BlueMotion

- Purpose-built BlueMotion cars include the full range of BlueMotion Technologies and a specially optimised design to reduce wind resistance.

E-Mobility

- Electric vehicles comprise both hybrid and fully electric vehicles, offering all the features of their regular counterparts.

*BlueMotion Technologies are available on all Volkswagens and vary between models.

**Technical specification (continued).**
**Technology and dimensions**

**Transmission**
- Electronic differential lock, combined with a hydraulically operated single plate dry clutch with variable free slippage via a variable speed automatic DSG gearbox.
- Manual six-speed manual, or a seven-speed automatic DSG gearbox with double clutch of 300hp capacity.

**Running gear**
- ESC (Electronic Stabilisation Control) including EDS (Electronic Differential Lock) and ASR (Assistance for the Rejection of Slips). 
- Suspension: front suspension by transverse strut with telescopic shock absorbers, rear suspension by transverse wishbones (front and rear). 
- Brakes: four-wheel vacuum-assisted power-assisted hydraulic brakes with anti-lock braking system.

**Engine**
- Final transmission-driven engine:
  - 1.0 litre TSI 1.0 110 PS (01) (110 kW) common rail diesel engine: EU6 emissions standard, four cylinder in-line direct injection turbocharged engine, with four valves per cylinder. Fitted with a catalytic converter and a DPF (diesel particulate filter).
  - 1.2 litre TSI 1.2 110 PS (01) (110 kW) petrol engine: EU6 emissions standard, four cylinder in-line direct injection turbocharged engine, with four valves per cylinder. Fitted with a catalytic converter and electric boost pressure regulation. Available with a five-speed manual transmission.
  - 1.4 litre TSI 1.4 150 PS (01) (110 kW) petrol engine: EU6 emissions standard, four cylinder in-line direct injection turbocharged engine, with four valves per cylinder. Fitted with a turbocharger and with electric boost pressure regulation. Available with a six-speed manual transmission.
  - 1.4 litre TSI 1.4 150 PS (01) (110 kW) petrol engine: EU6 emissions standard, four cylinder in-line direct injection turbocharged engine, with four valves per cylinder. Fitted with a turbocharger and with electric boost pressure regulation. Available with a six-speed automatic DSG transmission.

- 1.6 litre TDI 1.6 110 PS (01) (110 kW) common rail diesel engine: EU6 emissions standard, four cylinder in-line direct injection common rail diesel engine, with four valves per cylinder. Fitted with a catalytic converter and a DPF (diesel particulate filter). Available with a five-speed manual, six-speed manual or a seven-speed automatic DSG transmission.

- 1.6 litre TDI 1.6 110 PS (01) (110 kW) common rail diesel engine: EU6 emissions standard, four cylinder in-line direct injection common rail diesel engine, with four valves per cylinder. Fitted with a catalytic converter and a DPF (diesel particulate filter). Available with a five-speed manual, six-speed manual or a seven-speed automatic DSG transmission.

- 2.0 litre TDI 2.0 150 PS (01) (110 kW) common rail diesel engine: EU6 emissions standard, four cylinder in-line direct injection common rail diesel engine, with four valves per cylinder. Fitted with a catalytic converter and a DPF (diesel particulate filter). Available with a five-speed manual or a six-speed automatic DSG transmission.

**Dimensions**

**Figures shown are for standard specification models. The addition of certain factory-fitted options and/or accessories may affect some of the dimensions shown.**

**Accessories may affect some of the dimensions shown.**
Effect of wheel size on CO2 emissions and VED bands

Choosing larger alloy wheels than standard as an option, may result in increased fuel consumption as well as higher CO2 emissions and subsequently increased Vehicle Excise Duty (VED) band. The BIK rates paid by company car drivers may also increase. This is due to the fact that larger wheels have both more aerodynamic drag and more mechanical drag, resulting in increased rolling resistance and increased wind resistance. As a result, the VED band that the vehicle falls into may increase from its original VED band when fitted with standard size wheels. In some instances, the recommended ‘On the road’ retail price payable for the vehicle may increase as a result of the increased VED rate.

The chart below shows CO2 emissions and the related VED bands for vehicles with both standard-fit wheels and larger optional alloy wheels.

*Fuel consumption and CO2 figures are obtained under standardised EU test conditions (Directive 93/116/EEC). This allows for comparison between different manufacturers and different vehicle models, but may not represent the actual fuel consumption in 'real world' driving conditions.

More information is available on the Volkswagen website at www.volkswagen.co.uk and at www.dft.gov.uk/vca.

Please note: the increase in VED rate that is payable is in addition to the cost of the optional alloy wheels. Please consult your Volkswagen retailer for full details.

BMT refers to BlueMotion Technology.

Model shown is Golf SV GT with optional 18" ‘Serron’ alloy wheels, Bi-xenon headlights and metallic paint.
Model shown is Golf SV with optional bi-xenon headlights and metallic paint.
Volkswagen service.

Exclusions and conditions apply to all warranties and service plans. For price and further details on Volkswagen Warranties and Service Plans, please consult your authorised Volkswagen retailer or visit www.volkswagen.co.uk

Three-year Warranty

All Volkswagen passengers cars come with a three-year/60,000 miles warranty, which protects your new car from manufacturing defects in materials, workmanship and mechanical components for the first three years. This comes with a two-year manufacturer’s warranty with unlimited mileage plus a further one-year/60,000 miles warranty (whichever is sooner). Should the mileage exceed 60,000 miles within the first two years, the manufacturer’s warranty will no longer be valid. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

Three-year Warranty

The internal body panels and parts of the Golf car are covered against rusting through from the inside for 32 years. Naturally, the vehicle must be cared for in compliance with manufacturer’s operating instructions. Please consult your authorised Volkswagen retailer of repairer for advice.

Extended warranty

If you order the Volkswagen Extended Warranty as an option when you order your new Golf, you get the Volkswagen Warranty plus you can continue to enjoy comprehensive Volkswagen protection against many unforeseeable repair costs. Depending on your needs, you can purchase a one or two-year warranty up to a maximum of five years/108,000 miles.

Volkswagen Finance5

Volkswagen Finance specialises in providing funding solutions for Volkswagen drivers. Whether your Volkswagen is for private or business use, you can choose from a range of funding options. To help you budget for your Volkswagen, we can choose a funding plan from our range of leasing, personal contract plans and contract hire options. We can also provide you with car insurance to protect your car.

For all full details, please contact your authorised Volkswagen retailer.

Volkswagen Financial Services6

Volkswagen Financial Services is a trading name of Volkswagen Financial Services (UK) Limited ('VWFS UK'). Registered in England and Wales number: 1324965. Registered Office: Ageas House, Hampshire Corporate Park, Templars Way, Eastleigh, Hampshire SO53 3YA.

Aftercare Services

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted equipment of your Volkswagen. Approved accessories are purchased from and fitted by your authorised Volkswagen retailer at the manufacturer’s list price and also benefit from the three-year warranty vehicle.

Service intervals

Volkswagen recommends that you offer your Golf a service at your chosen Volkswagen retailer. The appropriate service interval is entirely dependent on how your car is likely to be driven and its general use. To help you identify which type of service is most suitable, please refer to the following guide.

Inspection service1 – According to the Flexible Service interval display (after 2 years at the latest).
•
Unlimited mileage, driven gently in urban traffic.
•
Minimum vehicle and engine loading, minimal towing and driven in an economical manner.

Flexible Service is recommended for vehicles that will cover less than 12,000 miles in 12 months and if the vehicle is driven in the way described below.

Preventively driven, short journeys with frequent cold starts.

Unlimited mileage, driven gently in urban traffic, highway cruising and car-sharing.

The Fixed Service is recommended for vehicles that will cover more than 12,000 miles in 12 months or if the vehicle is driven in the way described below.

Preventively driven, short journeys with frequent cold starts.

Unlimited mileage, driven gently in urban traffic, highway cruising and car-sharing.

The service intervals for the Flexible Service are as follows:

•
Annually (whichever is sooner) - Inspection service1

•
First after 30,000 km (18,000 miles), thereafter every 28,000 miles (45,000 km), whichever is sooner

The service intervals for the Fixed Service are as follows:

•
First after 30,000 km (18,000 miles), thereafter every 28,000 miles (45,000 km), whichever is sooner

Flexible Service

With the Flexible Service, the vehicle’s service interval display (after 2 years at the latest) will update with any change in specification. Please consult your authorised Volkswagen retailer for advice.

Flexible Service

The service interval display for the Flexible Service is as follows:

After 1 year or 10,000 miles (15,000km), whichever is soonest.
•
2nd after 20,000 km (12,000 miles), thereafter every 28,000 miles (45,000 km), whichever is sooner

Unextended Warranty

Information in the brochure is based on the assumptions that the basic comprehensive motor insurance policy no matter who you are insured with, to make sure you get the best possible level of coverage.

Tax Free Sales

For full details, please contact your authorised Volkswagen retailer.

Note:

Volkswagen Financial Services2

All warranty work must be completed by an authorised Volkswagen retailer or repairer.

Volkswagen Financial Services3

Volkswagen Financial Services4

Our warranty work and service intervals are entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service is most suitable, please refer to the following guide.

Volkswagen Financial Services5

With all Volkswagen Finance products you choose a fixed-cost maintenance plan to help you budget for your servicing and maintenance costs. For more information please contact your local Volkswagen retailer.
