The Passat range.
Full of advanced
features and
bright ideas.

Legendary
build quality,
sleek contours
and contemporary
styling.

- 01 The **chrome louvres** of the radiator grille and chrome front bumper trim, add a touch of refinement and elegance to the front design.
- 02 The **strong, prominent C pillar** provides a dynamic transition to the distinctive rear design.
- 03 **Bi-xenon headlights** are equipped with LED daytime running lights, giving the Passat a contemporary, stylish look. The rear is also enhanced with dynamic LED rear tail lights, giving the Passat its distinctive identity. Standard on Executive Style and optional on all other models.
- 04 17 inch **'Michigan' alloy wheels** give a distinctly sporty look to Executive models.

From whichever angle you view the Passat, the design is unmistakably and unequivocally Volkswagen: stylish, innovative and elegant.

Model shown is Passat Saloon Executive Style.

Elegance redefined.

Model shown is Passat Saloon Executive Style with optional metallic paint.

The Passat Estate Alltrack.
Make tracks.

Model shown is Passat Estate Alltrack with optional Bi-xenon headlights and metallic paint.

From the DAB digital radio receiver and Bluetooth telephone connection for HFP (Hands Free Profile) enabled phones to the MDI (Multi Device Interface) and the multifunction computer, the Passat S models offer exceptional standards of safety, comfort and quality.

* Phones must be Bluetooth HFP (Hands Free Profile) compatible, please contact your authorised Volkswagen retailer for specific phone compatibility.

01 The **RCD 310 DAB radio/MP3 compatible CD player** features eight speakers with an output of 4 x 20 watts. It also features an MDI (Multi Device Interface) and an AUX-in socket for connection to an external multimedia source (e.g. iPod or MP3 player).

02 **16 inch 'Barcelona' alloy wheels** with 205/55 R16 tyres enhance the look of the Passat S with their sporty elegance, while the tyre pressure loss indicator provides additional peace of mind.

03 The **manual air conditioning system** produces a pleasant, consistent temperature throughout your journey. It's extremely user-friendly and achieves your required cabin temperature quickly and efficiently.

04 **Bluetooth telephone connection*** allows you to use your mobile phone without taking it out of your pocket. The phone book and call information is displayed on the multifunction computer and the system can be easily operated using the leather trimmed three-spoke multifunction steering wheel.

The Passat S.

- 01** The **aerodynamic design** of the Passat BlueMotion helps reduce the vehicle's air resistance and, combined with Volkswagen's BlueMotion Technologies, low rolling resistance tyres and lowered suspension help produce exceptional economy. Image shown features optional 17 inch 'Buenos Aires' alloy wheels, front fog lights, Bi-xenon headlights and 'Island Grey' pearl effect paint.
- 02** The stylish interior of the Passat BlueMotion in '**Blue Merlin/Titan Black**' cloth upholstery adds that extra touch of individuality.
- 03** The unique '**BlueMotion**' badge at the rear symbolises its environmental credentials. For more information on BlueMotion and BlueMotion Technologies, please see pages 22-23.
- 04** The **multifunction computer** provides useful statistics about your journey, such as exterior temperature, average and current fuel consumption, average speed and estimated distance to refuelling. It also includes a visual gear change recommendation for improved fuel consumption.

The Passat BlueMotion.

The BlueMotion offers impressive environmental credentials by intelligently refining existing technology. Dynamic lines reduce the vehicle's air resistance and, combined with engineering refinements, rear boot spoiler on Saloon models, lowered suspension and battery regeneration (recuperation – energy recovery during braking) help produce exceptional economy. A Start/Stop function automatically stops the engine when the vehicle is stationary, in neutral and the clutch released and informs you by displaying a symbol on the multifunction computer, then cleverly restarts it when you depress the clutch to select first gear. The result is improved fuel savings and reduced emissions.

The Passat Executive offers an impressive level of comfort and luxury, with many impressive features fitted as standard, including 'Vienna' leather upholstery*, a Driver Alert system which detects and then warns, the driver of fatigue and Bluetooth telephone connection for HFP (Hands Free Profile) enabled phones.

01 Luxurious 'Vienna' leather upholstery* is not only sumptuous, it also has the practicality of being easy to clean, and is durable and hard wearing. The front seats are also heated for extra comfort during the cold weather.

02 The RNS 315 touch-screen navigation/DAB radio system with MP3 compatible CD player features eight speakers, crystal clear digital audio broadcasts, a 5 inch colour display with clearly arranged map navigation, as well as an SD card reader and practical AUX-in socket for connecting external audio devices such as an iPod or MP3 player.

03 Parking sensors make parking manoeuvres less challenging by emitting an audible warning, alerting the driver to any obstacles in the way: the closer you are to an obstacle the faster the sound frequency. An optical parking display via the touch-screen display is also a handy addition. Image shown features optional Bi-xenon headlights.

04 The Climate control – 2Zone electronic air conditioning with automatic air recirculation, courtesy of an air quality sensor, provides temperature controls that can be individually adjusted by the driver and front passenger, enabling them to set their own desired temperature. The system ensures all passengers enjoy a comfortable journey and the temperature selected is displayed accurately, within half a degree Celsius.

05 Chrome detailing forms an elegant frame for the windows, giving greater definition to the roof and door lines. Front, side and rear bumper trims also feature chrome.

06 The driver's seat offers electric 6-way adjustment including lumbar support, while head restraints can be adjusted vertically and horizontally, ensuring the optimum position for your spine.

07 17 inch 'Michigan' alloy wheels with 235/45 R17 ContiSeal (self-sealing) tyres give a refined look to the exterior of the Passat Executive.

* Some parts of leather interior will contain artificial leather.

The Passat Executive.

Interior shown is Passat Saloon Executive with optional metallic paint.

01 Bi-xenon headlights incorporate a variety of functions, designed to provide a clearer, brighter light and give you a better view of the road ahead. Automatic range adjustment, for example, provides wider or longer beams of light depending on your speed, while dynamic curve lighting ensures the headlights follow your steering movement, providing better illumination on bends. Headlight washers help keep your headlights free from dirt, ensuring maximum visibility, and LED daytime running lights and rear tail lights not only give your Passat its characteristic elegant look, but also ensure your vehicle is more visible.

02 A stylish addition to the Passat Executive Style are the **18 inch 'Kansas' alloy wheels** with 235/40 R18 ContiSeal (self-sealing) tyres, with sports suspension lowered by approx. 15mm.

03 Front fog lights with static cornering function have chrome trimmed surrounds adding a touch of elegance to the distinctive front design.

04 Heat insulating rear tinted windows from the B pillar back are 65% light absorbing, and helps reduce exposure to the sun's rays whilst giving your Executive Style a sporty look.

The Passat Executive Style.

The Passat Executive Style builds over the impressive array of features of the Executive, with excellent exterior features such as 18 inch 'Kansas' alloy wheels, Bi-xenon headlights, front fog lights and heat insulating tinted glass, giving the Executive Style its own stylish identity.

01 The robust **matt chrome effect underbody protection** gives the Passat Estate Alltrack's front and rear its distinctive, purist off-road design, and when you choose the 2.0 TDI 177 PS DSG engine, twin chrome exhaust tailpipes complete the rugged style. (Double tailpipes on 2.0 TDI 140 PS.) Uneven ground or urban parking space, parking sensors both front and rear provide driver confidence whatever the manoeuvre.

02 The Passat Estate Alltrack with intelligent **4MOTION four wheel drive** as standard, distributes power to all four wheels as required and ensures optimum traction.

03 **Anthracite wheel arch protection**, side sill protection in anthracite and matt chrome effect and the structural design of the **18 inch 'Canyon' alloy wheels** with 225/45 R18 ContiSeal (self-sealing) tyres make each, and every one of your trips, even more stylish.

04 The Passat Estate Alltrack is instantly recognisable by its **'Gloss Black' radiator grille with matt chrome louvres**, as well as matt chrome detailing on front fog light surrounds, door mirrors, roof rails, window surrounds and underbody protection. The honeycomb front air intake completes the 'tour de force'. Model shown features optional Bi-xenon headlights and metallic paint.

05 The 2.0 litre TDI 177 PS DSG engine features **XDS, an extension of the well-known Electronic Differential Lock (EDL) function**. This is linked to the Electronic Stability Control (ESC) hydraulics and works by applying pressure to the inner front wheel during fast cornering to prevent wheel-spin. Optional on 2.0 litre TDI 140 PS engine.

The Passat Estate Alltrack.

The Passat Estate Alltrack comes with the addition of four wheel drive 4MOTION and increased ground clearance giving it greater agility off-road, while body enhancements provide some protection from scrapes when covering rough terrain. Inside, a tyre pressure monitoring system alerts you of any change in tyre pressure. These features endow the Passat Estate Alltrack with the practicality of an estate car and much of the versatility of a conventional SUV.

Model shown is Passat Estate Alltrack 2.0 litre TDI 4MOTION BlueMotion Technology DSG 177 PS with optional Bi-xenon headlights including LED rear tail lights and metallic paint.

Interior shown is Passat Estate Executive with optional panoramic sunroof and sunblind for rear side windows.

01 Behind the elegant passenger compartment of the Passat Estate lies a **flexible loading space** that can be extended to provide a massive 1,731 litres of stowage capacity when the rear seats are folded down. Image shown includes **sliding load bed**, which forms part of the optional **Cargo management system***.

02 The optional **electric glass panoramic sunroof** adds a new dimension of light and space to your Passat Estate and Alltrack, letting in three times more light than a conventional sunroof. The result is a beautifully light, airy passenger compartment with an uninterrupted view of the sky above. And at night, what could be better than looking up to a starlit sky? Optional on all models except BlueMotion.

03 Black roof rails are a handy and practical addition to the exterior of the Passat Estate S, BlueMotion, Executive, Executive Style, and can be fitted with various carrier systems for transporting bulky items.

04 Choosing optional **chrome-plated roof rails**, adds even more style to the exterior. Chrome-plated roof rails are available as an option on S, Executive and Executive Style models, while Alltrack models feature **mat chrome-plated roof rails** as standard.

* Cargo management system is optional on all models except BlueMotion. Cargo management system and boot space mat cannot be specified in conjunction with each other.

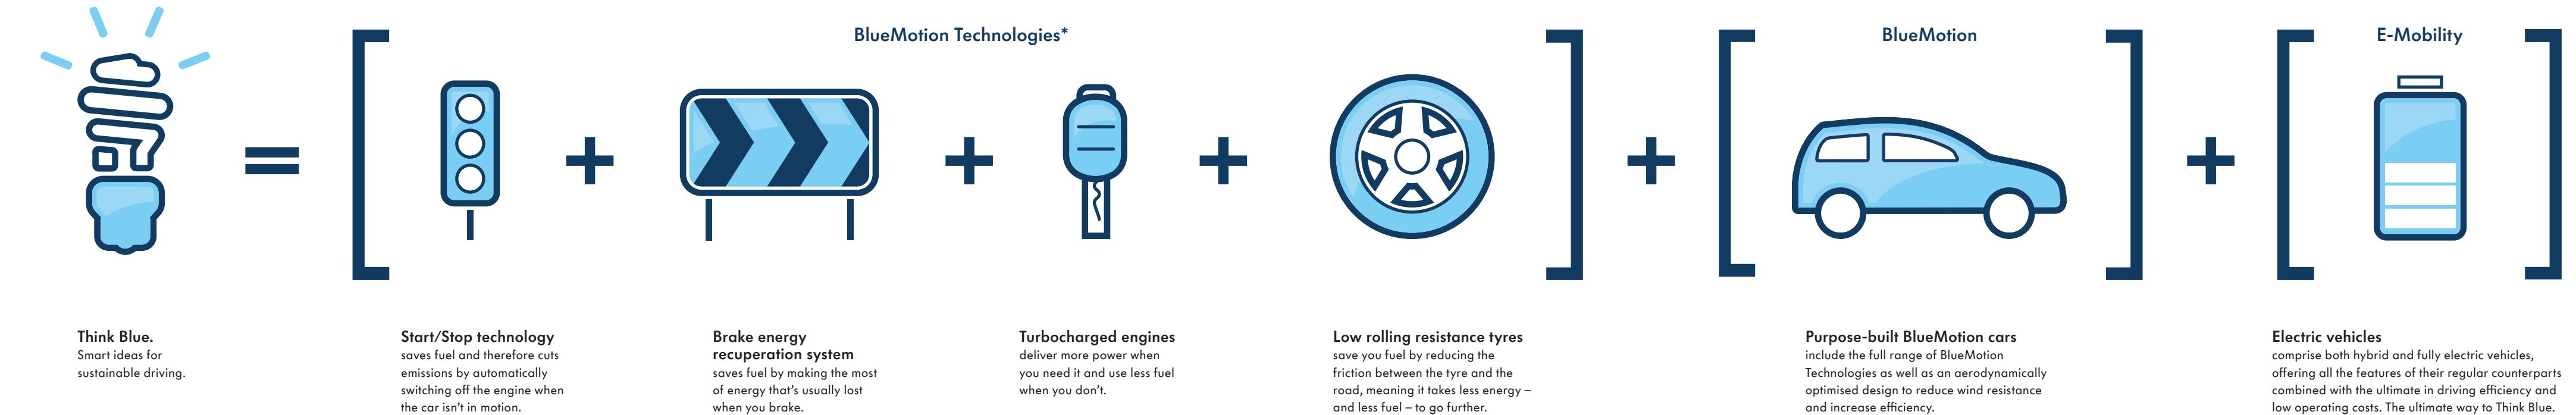

Estate highlights.

Think Blue.

Sustainability + Ingenuity.

‘Think Blue’ is Volkswagen’s promise to create progressive, environmentally friendly products and processes. So, from our concepts to our designs, from our fabrics to our machines, from our buildings to our water supply and from our engines to the open road, we can help shape a more sustainable future. We have already started by creating electric vehicles, BlueMotion models and efficient BlueMotion Technologies that save you money and reduce emissions.

*BlueMotion Technologies are available on all Volkswagens, excluding Phaeton, and vary between models.

The most important consideration for any driver is safety. That's why it's so reassuring to drive the Passat. With a whole range of safety features included as standard, the Passat provides the highest levels of safety possible, ensuring optimum protection in hazardous situations.

01 Driver fatigue is a major cause of road accidents, accounting for up to 20% of serious accidents on monotonous roads, such as motorways, in Great Britain. Fatigue related crashes are often more severe than others because the driver's reaction times are delayed or they have failed to make any manoeuvres to avoid a crash. With these facts in mind, Volkswagen has developed the **Driver Alert system** which gives an early warning of when you need to take a break on long and tiring journeys, making motorway driving safer. The system works by monitoring driver behaviour closely, noting any erratic steering wheel movements and lane deviations. If the system detects an erratic or unusual driving pattern, it will alert you with a visual display on the dashboard and an audible warning sound, and if you haven't taken a break within 15 minutes, it will repeat the warnings. The Driver Alert system is just one of a number of Volkswagen's innovative driver assistance systems, designed to make driving easier, more comfortable and, above all, safer. Standard on Executive, Executive Style and Alltrack models. Optional on all other models as part of cruise control or as part of Adaptive Cruise Control (ACC) on S models.

02 The **Electronic Stability Control (ESC)** recognises critical driving situations and reacts in milliseconds by targeting brake and management systems, controlling the speed of individual wheels and helping to bring the vehicle under control. As a result the vehicle achieves maximum directional stability. Standard on all models.

03 Optional **Side scan** makes motorway driving safer by helping to prevent accidents when you want to change lanes. The radar system monitors the areas to the left and right of the car and up to 50 metres behind it, and should it detect a potentially hazardous situation, it warns you by means of flashing warning lights in the door mirror housing. Optional on all models. Side scan must be ordered in conjunction with Convenience pack on S and BlueMotion models.

Safety.

04 **Lane Assist** is a camera controlled lane tracking aid that countersteers your vehicle if it drifts from your chosen lane and also gives an audible warning should you remove your hands from the steering wheel. Optional on all models. Lane Assist also includes Traffic Sign Recognition[†] when ordered in conjunction with the RNS 315 navigation/DAB radio or RNS 510 DVD navigation/DAB radio systems. Lane Assist must be ordered in conjunction with Convenience pack on S and BlueMotion models. Lane Assist cannot be ordered in conjunction with heated windscreen.

05 **Bi-xenon headlights** incorporate a variety of functions, designed to provide a clearer, brighter light and give you a better view of the road ahead. Automatic range adjustment, for example, provides wider or longer beams of light depending on your speed, while dynamic curve lighting ensures the headlights follows your steering movement, providing better illumination on bends. Headlight washers help keep your headlights free from dirt, ensuring maximum visibility, and LED daytime running lights and rear tail lights not only give your Passat its characteristic elegant look, but also ensure your vehicle is more visible. Standard on Executive Style and optional on all other models.

06 The **standard airbag system** consists of driver's and front passenger's airbags with front passenger's airbag deactivation switch, curtain airbags for front and rear occupants, and seat side impact airbags in the front. Together with seat belts, airbags reduce the risk of serious head and chest injuries: as soon as the crash sensors register a collision, a gas generator fills the airbags within 30 to 40 milliseconds. The activated airbags then cushion the head and upper part of the body, distributing the impact of the collision over as wide an area as possible and ensuring less forward movement of the neck, significantly reducing risk of whiplash and injury.

07 The 2.0 TDI 177 PS engines now feature **XDS**, an extension of the well-known Electronic Differential Lock (EDL) function. This is linked to the Electronic Stability Control (ESC) hydraulics and works by applying pressure to the inner front wheel during fast cornering to prevent wheel-spin. The one-sided, precise brake pressure helps to maximise traction, reduce understeer and improve responses, thus making cornering even more sporty, safe and accurate. Optional on all other engines except 1.4 TSI 122 PS and 1.6 TDI 105 PS engines.

[†] Image shown features colour multifunction computer, optional on Executive and Executive Style, and standard on Alltrack models.

A range of powerful engines deliver optimum performance along with exceptional economy and lower emissions.

For years, the Passat range has been renowned for delivering the ultimate in reliability, practicality and comfort. Now, Volkswagen are building on this established reputation with a range of highly innovative, technological advancements, designed to meet your every expectation, and make a real difference in terms of quality, refinement and luxury. The latest TDI engines, for example, are equipped with common rail technology, ensuring high torque along with low fuel consumption. TSI petrol engines follow the downsizing principle, using low capacity, highly sophisticated turbocharging and precise direct injection to deliver maximum power and exceptional fuel economy. When utilised with BlueMotion Technologies such as the Start/Stop function, which momentarily switches off the engine when the vehicle is stationary and in neutral and starts it again as you depress the clutch and battery regeneration, which recuperates energy under braking and acceleration to boost the alternator – both fuel consumption and CO₂ emissions are further reduced dramatically.

01 TDI are three letters that have acquired legendary significance, symbolising high torque, low consumption and quiet performance. TDI diesel engines utilise common rail technology and are fitted with a Diesel Particulate Filter (DPF) which filters out exhaust elements that are harmful to the environment, significantly reducing diesel emissions as a result.

02 Volkswagen's technologically advanced **TSI** engines combine excellent driveability with impressive fuel economy. The combination of direct fuel injection and intelligent turbocharging technology allows petrol engines with TSI technology to work particularly efficiently, offering such advantages as high performance, high torque and reduced fuel consumption.

03 Externally, Volkswagen's '**BlueMotion**' and '**BlueMotion Technology**' badging identifies the cleanest, most energy-efficient cars in our range. So when you see this badge you'll know we're talking about ways to cut emissions and the cost of your motoring.

Engines.

01 The **RCD 510 touch-screen DAB radio/dash-mounted MP3 compatible six CD autochanger** features a large 6½ inch colour display, with intuitive menu navigation and touch-screen operation. It also features an AUX-in socket for connection to an external multimedia source, such as an iPod or MP3 player, and an SD memory card slot. Optional on S and BlueMotion models.

02 The **RNS 315 touch-screen navigation/DAB radio system with MP3 compatible CD player** features a 5 inch colour display with clearly arranged map navigation, as well as an SD card reader and practical AUX-in socket for connecting external audio devices such as an iPod or MP3 player. Standard on Executive, Executive Style and Alltrack. Optional on S and BlueMotion models.

03 The **RNS 510 touch-screen DVD navigation/DAB radio system with integrated voice control and rear-view camera** will guide you to your destination and includes a 6½ inch colour display. This state-of-the art system responds to spoken voice commands for navigation, CD and radio functions. The 30 GB hard drive is preloaded with navigation data and it also plays DVDs (when the vehicle is stationary) and music from the DVD drive, 30 GB hard drive or via an SD card. Also featured are a rear-view camera and an AUX-in socket for connection to an external multimedia source, such as an iPod or MP3 player. Optional on all models.

04 The **rear-view camera** provides a clear view to the rear of your vehicle, transmitting a live image to your radio or navigation system display, enabling you to manoeuvre quickly and easily into the most difficult parking space. Optional on all models and standard as part of the RNS 510 touch-screen DVD navigation/DAB radio system on S and BlueMotion models. Image shown features optional RNS 510 touch-screen DVD navigation/DAB radio system.

05 The **Climate control – 2Zone electronic air conditioning with automatic air recirculation**, courtesy of an air quality sensor, provides temperature controls that can be individually adjusted by the driver and front passenger, enabling them to set their own desired temperature. The system ensures all passengers enjoy a comfortable journey and the temperature selected is displayed accurately, within half a degree Celsius. Standard on Executive, Executive Style and Alltrack. Optional on S and BlueMotion models. Image shown features optional RNS 510 touch-screen DVD navigation/DAB radio system.

RCD 510 DAB radio system, RNS 315 navigation/DAB radio system or RNS 510 DVD navigation/DAB radio system cannot be specified in conjunction with each other. Rear-view camera will be fitted in lieu of DAB digital radio receiver when ordered in conjunction with RCD 510 radio system.

Optional equipment.

01 Adaptive Cruise Control (ACC) and the radar sensor controlled Front Assist system adapt your speed to that of the vehicle ahead and maintain a constant distance set by the driver. If Front Assist detects you are getting too close to the vehicle in front, it will warn you in two stages: visually and acoustically, and will then automatically start braking, to a standstill if necessary. Optional on all models except BlueMotion. S models include **Driver Alert system**.

Not in conjunction with 1.4 litre TSI 122 PS or 1.6 litre TDI 105 PS engines.

02 The Keyless entry system enables you to enter your vehicle and even start the engine using a button in the centre console, without taking the key out of your pocket. In addition, this option on Passat Saloon models can also be specified with **hands free boot opening** which uses a sensor beneath the rear bumper, so having your hands full while trying to open your boot is no longer a chore. Estate models (excluding Alltrack) can also be specified with **hands free tailgate opening** as well as featuring an electric tailgate.

03 Dynamic Chassis Control (DCC) allows you to select Sport, Comfort or Normal settings for your journey with a touch of a button, and adapts the damping control and shock absorption rate to the road conditions and driving style you require within milliseconds. Optional on S, Executive and Alltrack models.

04 Bi-xenon headlights feature dynamic curve lighting and automatic range adjustment providing better illumination of the road ahead, on bends and when turning. LED daytime running lights are a striking feature and LED rear tail lights ensure your vehicle is more visible during the day. As an added convenience, headlight washers keep your headlights free from dirt at all times. Standard on Executive Style and optional on all other models. On S, BlueMotion and Executive models, this option also includes front fog lights.

Bi-xenon headlights not in conjunction with High Beam Assist.

05 Volkswagen's Park Assist system has long made parallel parking significantly easier. However, this system combines conventional Park Assist with the added functionality of reverse parking into a space at 90° to the kerb. The driver activates the system by pressing a button on the centre console. Using ultrasonic parking sensors, Park Assist will detect a large enough parking space for either reverse or parallel parking and the assisted parking process can begin. Having put the vehicle into reverse, all the driver has to do is operate the accelerator, clutch and brake, while keeping a good lookout.

The Passat then takes care of the steering into its chosen space. Further improvements mean Park Assist can now parallel park in particularly small spaces only 0.8m longer than the vehicle. Optional on all models.

06 The large electric glass panoramic sunroof allows in three times more light into the Passat Estate than a conventional sunroof, providing an extra dimension of light and space. Optional on all models except BlueMotion.

07 Lane Assist is a camera controlled lane tracking aid that countersteers your vehicle if it drifts from your chosen lane, and gives an audible warning should you remove your hands from the steering wheel. Lane Assist also includes Traffic Sign Recognition when ordered in conjunction with the RNS 315 navigation/DAB radio or RNS 510 DVD navigation/DAB radio systems. Optional on all models.

Must be ordered in conjunction with Convenience pack on S and BlueMotion models. Not in conjunction with heated windscreen.

Alloy wheels.

- 01 **‘Barcelona’** 7J x 16" with 205/55 R16 tyres. Standard on S models.
- 02 **‘Michigan’** 7½J x 17" with 235/45 R17 ContiSeal (self-sealing) tyres. Standard on Executive models.
- 03 **‘Kansas’** 8J x 18" with 235/40 R18 ContiSeal (self-sealing) tyres. Standard on Executive Style models.
- 04 **‘Canyon’** 8J x 18" with 225/45 R18 ContiSeal (self-sealing) tyres. Standard on Alltrack models.
- 05 **‘Fontana’** 7½J x 17" with 235/45 R17 ContiSeal (self-sealing) tyres. Optional on S models.

- 06 **‘Buenos Aires’** 7½J x 17" with 235/45 R17 tyres. Optional on BlueMotion models¹.
- 07 **‘Minneapolis’** 7½J x 17" with 235/45 R17 ContiSeal (self-sealing) tyres. Optional on Executive models.
- 08 **‘Canyon Anthracite’** 8J x 18" with 225/45 R18 ContiSeal (self-sealing) tyres. Available as a no cost option on Alltrack models.

¹ Includes tyre mobility set in lieu of full size steel spare wheel.

Model shown is Passat Estate Executive Style with optional chrome-plated roof rails and 'Island Grey' pearl effect paint.

There's a Volkswagen for all of us.

Nippy city run around? Luxurious executive saloon? Open-top cruiser? Whatever it is you're looking for, we probably have it. From the iconic Beetle and Golf GTI to the up! and fuel-efficient BlueMotion Golf, there's a Volkswagen for everyone.

If you're thinking you might like to try a different Volkswagen, take a look at the selection below to see what else we have. There are 21 models in our range, so there's bound to be at least one that catches your eye.

Sporty

Golf: As exciting to drive as it is to look at. Style, performance and power.

You will also find our sporty gene in the iconic Golf GTD and R. Or for something more refined and elegant, there's the Eos too.

Efficient

Our **BlueMotion** models benefit from innovative energy-saving technology that helps you optimise fuel consumption and reduce harmful emissions. This includes low rolling resistance tyres and improved aerodynamics, accompanied with advanced engines and gearboxes. Choose from the BlueMotion Polo, Golf, Golf Estate, Passat or Passat Estate.

However, BlueMotion Technology can be found across our range where automatic Start/Stop technology and brake energy recuperation is standard on the majority of our engines, helping you to save more money by being more efficient.

Spacious family cars

Sharan: The ultimate in convenience with sliding rear doors, and enough space for the whole family. And their luggage. And the dogs.

If it's space you're after, then you might also like to consider the Tiguan, Golf SV, Golf Estate, Touran and Passat Estate.

Style

Beetle: The original icon. And still the most unique way to make a fashion statement.

For more fun with the top down, why not consider Beetle Cabriolet, Golf Cabriolet or Eos.

City run around

up!: The ideal city car. Efficient, fun and surprisingly spacious, with that trademark Volkswagen solidity.

If you're looking for something slightly more spacious, then why not consider the up!'s bigger sibling, the Polo. City run around efficiency with more versatility and even more space can be found on the iconic Golf – winner of 'World Car of the Year 2013'.

Executive

Volkswagen CC: Perfectly turned out high-tech, executive luxury. A contemporary, stylish and innovative coupé.

All the luxury you need can also be found in the top of the range Phaeton, and executive comfort in the Passat Saloon and Jetta.

4x4

Touareg: The SUV just got smarter. True four by four capability off-road, and smooth, luxurious and powerful when on it. Features four wheel drive technology, '4MOTION', as standard for optimum road grip, stability and control.

Go anywhere, do anything in our four wheel drive alternatives: Tiguan and Passat Alltrack.

To see these models and configure your ideal Volkswagen, visit: www.volkswagen.co.uk

Technical specification – Passat Saloon.

Technical specification notes

- (01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- (02) Figures are calculated in accordance with manufacturer’s criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly. The unladen weight and payload both include the fuel tank 90% full, driver (68kg) and luggage (7kg) in line with EU directive 95/48.
- (03) With increasing altitude the engine performance diminishes. From 1,000m above sea level and for every 1,000m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- (04) The use of 100% RME and FAME (bio diesel) is not possible. Forecourt diesel with up to 7% bio diesel content, adhering to standard BS EN 590, can be used in diesel engines. The use of ethanol in forecourt petrol meeting BS EN 228 is allowable.
- (05) The size of the fuel tank is approximate and therefore it may be possible to add a greater amount of fuel than the size of the tank specified, due to the space in the filler neck.
- (06) Fuel consumption and CO₂ figures are obtained under standardised EU test conditions (Directive 93/116/EEC). This allows a direct comparison between different manufacturer models but may not represent the actual fuel consumption achieved in ‘real world’ driving conditions. More information is available on the Volkswagen website at www.volkswagen.co.uk and at www.vca.gov.org.
- (07) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

Model shown is Passat Estate Alltrack with optional Bi-xenon headlights and metallic paint.

Engines

1.4 litre/122 PS ⁽⁰¹⁾ (90 kW) petrol engine: EU5 emissions standard, four cylinder in-line direct injection turbocharged engine, with four valves per cylinder. Fitted with a turbocharger. Available with a six speed manual or a seven speed automatic DSG transmission

1.4 litre/160 PS ⁽⁰¹⁾ (118 kW) petrol engine: EU5 emissions standard, four cylinder in-line direct injection twin-charged engine with four valves per cylinder, a supercharger and a turbocharger. Available with a six speed manual or a seven speed automatic DSG transmission

1.6 litre/105 PS ⁽⁰¹⁾ (77 kW) common rail diesel engine: EU5 emissions standard, four cylinder in-line common rail diesel engine, with four valves per cylinder. Fitted with a turbocharger and a DPF (diesel particulate filter). Available with a six speed manual transmission

2.0 litre/140 PS ⁽⁰¹⁾ (103 kW) common rail diesel engine: EU5 emissions standard, four cylinder in-line common rail diesel engine, with four valves per cylinder. Fitted with a turbocharger and a DPF (diesel particulate filter). Available with a six speed manual or a six speed automatic DSG transmission

2.0 litre/177 PS ⁽⁰¹⁾ (130 kW) common rail diesel engine. EU5 emissions standard, four cylinder in-line common rail diesel engine, with four valves per cylinder. Fitted with a turbocharger and a DPF (diesel particulate filter). Available with a six speed manual or a six speed automatic DSG transmission

Transmission

- Front wheel drive through asbestos-free single-plate dry clutch. Hydraulic clutch mechanism. Six speed manual, six or seven speed automatic DSG gearbox with double joint half axles (wet clutch on six speed DSG models)
- Electronic differential lock, combined with a hydraulically operated single-plate dry clutch with asbestos-free lining via a six speed auto DSG gearbox
- Six speed manual: 1.4 litre TSI 122 PS, 1.4 litre TSI 160 PS, 1.6 litre TDI 105 PS, 2.0 litre TDI 140 PS, 2.0 litre TDI 177 PS
- Six speed auto DSG: 2.0 litre TDI 140 PS, 2.0 litre TDI 177 PS
- Seven speed auto DSG: 1.4 litre TSI 122 PS, 1.4 litre TSI 160 PS
- Four wheel drive, 4MOTION: Six speed manual 2.0 litre TDI 140 PS, six speed automatic DSG gearbox 2.0 litre TDI 177 PS

Running gear

- Electronic Stability Control (ESC) including Electronic Differential Lock (EDL), Traction Control (ASR) and Countersteer Support
- Front suspension through coil springs with telescopic shock absorbers, all elements integrated in chassis legs
- Rear suspension with gas pressure shock absorbers and separate springs
- Wheel control: front through chassis legs and (lower) triangular wishbones (directionally stabilising steering roll radius)
- Wheel control: rear through four-link suspension with independent wheel suspension
- Front and rear anti-roll bar
- XDS electronic differential lock (2.0 litre TDI 177 PS only)

Steering

- Electro-mechanical steering rack
- Collapsible, height and lengthways adjustable safety steering column

Brakes

- Electronically controlled Anti-lock Braking System (ABS) – includes BAS (Brake Assist System) and Electronic Brake-pressure Distribution (EBD)
- Diagonal twin-circuit brake system with inner-ventilated front disc brakes and rear disc brakes
- Asbestos-free brake pads
- Electronic parking brake – with auto hold function
- Battery regeneration (recuperation – energy recovery during braking)

Model shown is Passat Estate Executive Style with optional chrome-plated roof rails and metallic paint.

Volkswagen service.

The Volkswagen Warranty.

Three-year Warranty.

All Volkswagen passenger cars come with a three-year/60,000 miles warranty, which protects your car against the failure of most technical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty¹. Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

Body Protection Warranty.

The internal body sections and panels of the Passat are covered against rusting through from the inside for 12 years. Naturally, the vehicle must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

Three-year Paintwork Warranty.

This latest warranty, pioneered by Volkswagen, really provides you with the widest possible cover on a new car. There are no special conditions attached and paintwork manufacturing defects will be rectified without charge. Naturally, during the warranty period the car must be cared for in compliance with the operating instructions.

Approved Accessories.

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen approved accessories purchased from and fitted by your authorised Volkswagen retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

Extended Warranty.

If you order the Volkswagen Extended Warranty as an option when buying your new Passat then you get the 100% Volkswagen Warranty and you can continue to enjoy comprehensive Volkswagen protection against many unforeseeable repair costs. Designed to your needs, you can purchase an extra one or two year's warranty up to a maximum of five years or 90,000 miles.

Service Intervals.

Volkswagen is pleased to offer you a choice on how your Volkswagen is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Fixed Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts.
- Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing.
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking.

The service intervals for the Fixed Service are as follows:

- Oil change service – After 1 year or 10,000 miles (15,000km), whichever is soonest.
- Inspection service² – First after 2 years or 20,000 miles (30,000km), then every one year or 20,000 miles (30,000km), whichever is soonest.

The Flexible Service is recommended for vehicles with daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner. With the Flexible Service the vehicle can cover anywhere between 10,000³ and a maximum of 20,000³ miles or 24 months (whichever is soonest) between oil changes.

The service intervals for the Flexible Service are as follows:

- Oil change service – According to flexible service interval display (after 2 years at the latest).
- Inspection service² – First after 2 years or 20,000 miles (30,000km), then every one year or 20,000 miles (30,000km), whichever is soonest.

The up! model is only available with the Fixed Service schedule. Please consult your authorised Volkswagen retailer or repairer for advice and full details.

Please note: If you purchase a Volkswagen Fixed Price Service Plan your vehicle will follow the Fixed Service schedule.

Volkswagen Insurance⁴.

We want you to start enjoying your new car from day one and thanks to Volkswagen Insurance complimentary seven day cover, you can. Call free on 0800 316 7892 (lines are open Monday to Friday 8am – 9pm and Saturday 9am – 5pm), provide a few details and a cover note will be sent to your retailer. They will then tax your car and you can drive it away.

Volkswagen Insurance⁵.

Get three years' Volkswagen Insurance cover for free.

Another great benefit of being a Volkswagen driver. If your Volkswagen was damaged in an accident, wouldn't you want it fixed by a Volkswagen trained technician using only genuine Volkswagen parts? Insurance is Volkswagen's accident and repair cover which does exactly that. It works alongside your main comprehensive motor insurance policy no matter who you are insured with, to make sure you get the quality repair and service you would want. If you're involved in an accident or your car is stolen, just one call to us and we'll look after your claim from start to finish ensuring your Volkswagen is restored to the highest standard.

Activate your cover and benefit from:

- A guarantee that your Volkswagen will be repaired in a Volkswagen Insurance approved repairer, by Volkswagen trained technicians, using only genuine Volkswagen parts and paints.
- A dedicated Claims Manager will manage your claim from start to finish, liaising with your insurer and the repairer so you don't have to.
- Help to recover any uninsured losses using our Legal Expenses Cover.
- Online claims tracking so you can keep up to date with the status of any claim.

Volkswagen Insurance is free to all Volkswagen customers for three years and it only takes a minute to get cover. To find out more and to activate your cover, visit volkswagen-insurance.co.uk

Volkswagen Finance.

Volkswagen Finance specialises in providing funding solutions for Volkswagen drivers. Whether your Volkswagen is for private or business use, you can choose from a range of funding options.

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Volkswagen Finance products you can choose a fixed-cost maintenance plan to help you budget for your servicing and maintenance costs. No matter what finance product you choose, your local Volkswagen retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs.

CO₂ Emissions.

Increased weight of a vehicle, including higher trim levels and the addition of options will have a detrimental influence on the level of fuel consumption and CO₂ emissions produced. The CO₂ and fuel consumption figures are obtained from tests on a representative vehicle of the type, conducted and approved in accordance with Council Directive 80/1268/EEC as amended by Directive 1999/100/EC (or later) on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

Volkswagen Roadside Assistance.

Every new car is registered for Volkswagen Roadside Assistance for one year except the Touareg and Phaeton which are registered for three years. This provides vehicle roadside and home recovery in the unlikely event of a breakdown in the UK and Europe (subject to conditions). Volkswagen Roadside Assistance can also be purchased for subsequent years. For full details, please contact your authorised Volkswagen retailer.

Tax Free Sales.

For full details, please contact your authorised Volkswagen retailer.

Please note:

Some illustrations in this brochure do not necessarily reflect UK specifications and may not be available. In particular, controls and some items of equipment are positioned differently for the UK. The specifications contained in this brochure are for information purposes only and are subject to change. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen retailer prior to ordering.

Note: we would like to advise you that telephone calls to Volkswagen Customer Care may be monitored and recorded as part of our training and quality assurance processes. All our monitoring and recording processes meet Ofcom regulations.

¹ All warranty work must be completed by an authorised Volkswagen retailer or repairer.
² The inspection service first at 3 years (or 40,000 miles) and then every second year (or 40,000 miles) has additional workscope.
³ The quoted mileage is based on a conversion from kilometres and is therefore unlikely to exceed circa 18,000 miles between oil changes.
